Quarterly Financial Statements

Canada Lands Company Limited
Q3 (1 October to 31 December 2018)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL RESULTS

For the period ended December 31, 2018

This Management's Discussion and Analysis ("MD&A") provides important information about Canada Lands Company Limited's ("CLCL" or the "corporation") business, its financial performance for the period ended December 31, 2018, and its assessment of factors that may affect future results. The MD&A should be read in conjunction with the corporation's unaudited consolidated financial statements and notes (collectively the consolidated financial statements). The MD&A and consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The following MD&A is the responsibility of management and is current as at February 21, 2019. The Board of Directors of CLCL has approved this disclosure.

All dollar amounts, unless otherwise stated, are in millions of Canadian dollars.

CLCL's financial reporting, including the 2017/18 MD&A and audited consolidated financial statements and interim quarterly reports are available on CLCL's website, www.clcl.ca.

ABOUT CLCL

CLCL is the parent company of Canada Lands Company CLC Limited ("CLC"), Parc Downsview Park Inc. ("PDP") and the Old Port of Montreal Corporation Inc. ("OPMC").

CLCL operates within two principal segments: 1) Real Estate, through CLC and PDP's development lands (the "Downsview Lands"), and 2) Attractions, through Canada's National Tower ("CN Tower"), the park owned by PDP ("Downsview Park") and OPMC which includes the Montreal Science Centre ("MSC").

CLCL, through CLC, carries out CLCL's core real estate business in all regions of Canada.

CLCL carries out its policy mandate "to ensure the commercially oriented, orderly disposition of selected surplus federal real properties with optimal value to the Canadian taxpayer and the holding of certain properties." This mandate was approved by the Government of Canada (the "Government") on reactivation in 1995. CLCL optimizes the financial and community value of strategic properties no longer required for program purposes by the Government. Through CLC, it works to purchase properties from the federal government at fair market value, then holds and manages or improves and sells them, in order to produce the best possible benefit for both local communities and the corporation's sole shareholder, the Government.

CLC holds real estate across the country in various provinces and in various stages of development, with significant holdings in Vancouver, British Columbia; Calgary and Edmonton, Alberta; Ottawa and Toronto, Ontario; Montreal, Quebec; Halifax, Nova Scotia; and St. John's, Newfoundland and Labrador.

PDP is comprised of 231 hectares (572 acres) of land at the former Canadian Forces Base Toronto. The holdings at PDP are composed of active recreation, parkland and development real estate assets. PDP will be developed with a full range of uses in accordance with the approved City of Toronto Downsview Area secondary plan, which includes an area of 291 acres permanently set aside as parkland.

CLCL conducts its attractions operations through the CN Tower, the Downsview Park and active recreation areas of PDP, and OPMC.

The CN Tower is an iconic national landmark and tourist attraction located in downtown Toronto. The core business is managing the country's highest observation tower, restaurant operations and the EdgeWalk.

OPMC is located in the heart of historic Montreal along the St. Lawrence River. Its core business covers two main areas: Old Port of Montreal ("OPM") manages and hosts activities on the 2.5 kilometre long urban

recreational, tourist, and cultural site along the St. Lawrence River; and the MSC, which operates the IMAX theatre.

GOVERNANCE

CLCL's Board of Directors is composed of the Chair and six directors. Currently, the Chair of the Board of Directors position is vacant as the corporation awaits the appointment of a new Chair. Until the appointment is made, Ms. Jocelyne Houle has been appointed as the Interim Chairperson of the Board of Directors. For more details on CLCL's governance, see the "Corporate Governance" section included within the CLCL 2017/18 Annual Report.

The Board's total expenses for the period ended December 31, 2018 including meetings, travel expenses, conferences and seminars, liability insurance and annual retainers and per diems, totaled \$0.3 (December 30, 2017 - \$0.5).

The Board and senior management expenses are posted on CLC's website, www.clc.ca.

OBJECTIVES AND STRATEGIES

The corporation's goal in all transactions is to produce the best possible benefit for its stakeholders, local communities, itself and by extension its sole shareholder.

REAL ESTATE

The corporation optimizes the financial and community value from strategic properties that are no longer required by the Government. It purchases these properties at fair market value, then holds and manages them or improves and sells them.

In its development properties, the corporation follows a rigorous process to create strong, vibrant communities that add lasting value for future generations of Canadians. In all the work the corporation undertakes it strives to achieve its organizational goals to create value, legacy and innovation.

ATTRACTIONS

Through the CN Tower, PDP and OPMC, the corporation provides world-class entertainment and a wide range of unique attractions, exhibits and food and beverage offerings. The corporation also manages and hosts activities and events on urban recreational, tourism and cultural assets, and maintains the lands, buildings, equipment and facilities on those assets, including the MSC.

FINANCIAL HIGHLIGHTS FOR THE THIRD QUARTER OF FISCAL 2018/19 AND YEAR-TO-DATE 2018/19

- Revenues for the third quarter of 2018/19 were \$54.1, as compared to \$80.5 for the same quarter last year, representing a decrease of \$26.4 or 32.8%. Year-to-date consolidated revenues are \$206.6, as compared to \$233.6 for the same period last year, representing a decrease of \$27.0. The primary driver for lower consolidated revenues for both the third quarter and year-to-date were less real estate land sales due to the development cycle timing of active projects. These lower revenues were consistent with corporation budgets.
- Net income before tax ("NIBT") for the third quarter was \$8.3, as compared to \$13.2 for the same quarter last year, representing a decrease of \$4.9. Year-to-date consolidated NIBT was \$76.1, as compared to \$57.8 for the same period last year, which is approximately \$18.3 or 31.7% higher primarily as a result of the gain on sale of assets at PDP.
- Cash inflows from operating and investing activities for the third quarter were \$6.8 and year-to-date was \$40.0, which have been used to pay down credit facilities, repay promissory notes and pay a dividend to the corporation's shareholder.

RESULTS OF OPERATIONS

A summary of the various components of the corporation's Consolidated Statement of Comprehensive Income follows. Discussion of the significant changes in each of these components for the period ended December 31, 2018 compared to the prior year's comparative period are provided on the following pages.

DECEMBER 31	FOR THREE MONTHS ENDED		FOR NINE MONTHS ENDED	
	2018	2017	2018	2017
Real estate sales	\$ 17.8	\$ 47.1	\$ 25.6	\$ 92.7
Attractions, food, beverage and other hospitality (Attractions)	22.0	20.5	99.7	96.6

G&A	1.4	0.1	5.5	7.0	3.3	0.6	17.1	21.0
Income before taxes	(9.3)	(0.3)	22.8	13.2	(16.6)	(1.6)	76.0	57.8
Net Income (Loss)	(7.0)	(0.2)	16.4	9.2	(11.4)	(1.1)	54.7	42.2

REVENUE

Total revenue generated for the period was \$206.6, comprised of five principal sources:

1) Real estate sales

Real estate sales of \$25.6 for the period comprise sales of property developed as building lots and sold to builders of single-family homes, and developed land blocks. Revenue comprises sales in specific projects across Canada as the individual marketplaces dictate.

Real estate sales by region were as follows:

DECEMBER 31	FOR THREE MONTHS ENDED		FOR NINE MONTHS ENDED	
	2018	2017	2018	2017
West	\$ 17.8	\$ 5.9	\$ 18.5	\$ 12.9
Ontario	-	16.2	5.6	50.8
Quebec	-	25.0	-	29.0
Atlantic	-	-	1.5	-
Total	\$ 17.8	\$ 47.1	\$ 25.6	\$ 92.7

Real estate sales for the third quarter generated a gross profit, excluding general and administrative expenses and income tax, of \$6.2 (or 34.7%). CLCL's year-to-date real estate sales have generated a gross profit, excluding general and administrative expenses and income tax, of \$7.6 (or 29.8%).

In the comparative nine-month period in the prior year, two non-recurring large land sales were made at the Wateridge project in Ottawa and Les Bassins project in Montreal, which totaled over \$50.0 in aggregate. Real estate land sales are dependent on a number of factors, and the nature of the corporation's business does not necessarily allow for a consistent period-over-period volume of sales.

Margins vary widely from project to project and are influenced by many factors, including market demand in the project's location, the proximity of competing developments, the mix of product within the project, the cost of land, and the length of time for a project to be sold, and as a result it is difficult to compare year-over-year results.

2) Attractions, food, beverage and other hospitality

Attractions, food, beverage and other hospitality represent revenue from the CN Tower operations including admissions, restaurants and related attractions, and OPMC and Downsview Park operations including parking, concessions, programming, events, corporate rentals, and other hospitality revenues.

CN Tower

CN Tower revenues of \$20.5 for the third quarter and \$92.4 year-to-date is \$1.5 and \$2.7 higher than the comparable prior year periods, respectively. The CN Tower's earnings before interest, taxes, depreciation and amortization ("EBITDA") of \$8.0 for the third quarter and \$49.8 for the year-to-date was higher than the comparable prior year periods by \$0.6 and \$1.0, respectively.

Attendance during the third quarter was 341,000 visitors which was consistent with the comparable prior year period. Year-to-date there has been 1,708,000 visitors, compared to 1,739,000 in the comparable prior year period. The average guest spending year-to-date is approximately \$52 per visitor which is slightly higher than the comparable prior year due to stronger ticket sales mix.

Year-to-date revenues, EBITDA and attendance were impacted by an ice storm in April 2018 that forced the closure of the CN Tower and neighbouring businesses by local authorities for approximately 5 days.

OPMC

During the third quarter, OPMC generated revenue of \$1.7 from the MSC and its parking, concessions, programs and events operations. The revenues were \$0.3 higher than the comparable prior year third quarter. Year-to-date, OPMC has generated revenue of \$7.8, which is \$0.7 higher than prior year period, primarily driven by higher attendance at the temporary exhibit at the MSC.

PDP

During the third quarter, PDP generated revenue of \$0.2 from its programs and events which was consistent with the comparable prior year third quarter. Year-to-date PDP revenues of \$0.9 are consistent with the comparable prior year period.

3) Rental operations

Rental operations comprise revenue from commercial, industrial and residential properties held as investments as well as properties located on lands under development and held for future development across the country. Rental revenue for the third quarter and year-to-date of \$10.8 and \$35.5, respectively, was generated by investment properties, properties in inventory at various stages of development, and other properties across CLC, OPMC and PDP. The rental revenue for the third quarter was \$0.6 higher than the comparable prior year third quarter. Year-to-date rental revenues is slightly higher than the comparable prior period by \$0.1.

Rental revenues by region were as follows:

DECEMBER 31	FOR THREE MONTHS ENDED		FOR NINE MONTHS ENDED	
	2018	2017	2018	2017
West	\$ 3.5	\$ 3.2	\$ 9.9	\$ 9.9
Ontario	5.6	5.6	18.0	18.1
Québec	1.7	1.4	7.6	7.4
Total	\$ 10.8	\$ 10.2	\$ 35.5	\$ 35.4

The rental gross profits for the quarter and year-to-date of \$2.1 (19.5%) and \$7.6 (21.3%), respectively, were higher than the comparable prior year periods by \$2.1 and \$1.3, respectively. The increase in rental profits are consistent with budget and are primarily the result of significant non-recurring repairs and maintenance costs in the prior year.

4) Gain on sale of assets

In the first quarter, PDP completed a series of transactions (“the transactions”) with an adjacent land owner in Toronto. The transactions included the sale of subsurface land and the extinguishment of certain rights and encumbrances held, in exchange for cash consideration of \$33.0 million and five acres of land adjacent to PDP’s current property.

The transactions also included a roadway and infrastructure agreement which provides PDP and the adjacent land owner with certain rights and a framework for the sharing of costs and the allocation of those costs on their respective lands.

The corporation realized a net gain of \$34.7 before income taxes that is recorded under the revenue section of the Consolidated Statement of Comprehensive Income under the caption “Gain on sale of assets”.

5) Interest and other revenues

Interest and other revenue of \$3.5 for the third quarter and \$11.0 year-to-date are comprised principally of interest on short-term investments, cash and cash equivalents, long-term receivables and mortgages, and donation and sponsorship revenues at OPMC. Year-to-date interest and other revenue are favourable to the comparable prior year period as a result of higher interest rates on short-term borrowings.

OTHER

General and administrative expenses

General and administrative (“G&A”) expenses of \$7.1 for the third quarter was consistent with the comparable prior year third quarter. Year-to-date, G&A of \$21.7 was higher than the comparable prior year period by approximately \$0.6. The principal causes for the increase are additional IT support costs and one-time non-recurring employee costs at OPMC.

Taxes

The effective tax rate year-to-date of 27.3% is consistent with statutory rates.

FINANCIAL POSITION

ASSETS

At December 31, 2018 and March 31, 2018, the total carrying value of assets was \$1,231.6 and \$1,229.1, respectively. The following is a summary of the corporation's assets:

	December 31, 2018	March 31, 2018
Inventories	\$ 402.6	\$ 393.2
Investment properties	28.8	29.7
Property, plant and equipment	141.0	135.9
Cash and cash equivalents	442.9	453.5
Deferred tax asset recoverable	99.1	103.4
Long-term receivables	57.8	58.2
Trade and other assets	59.4	55.2
Total	\$ 1,231.6	\$ 1,229.1

Inventories

The corporation's inventories comprise properties held for future development of \$128.3 (March 31, 2018 - \$163.7), properties under development of \$252.1 (March 31, 2018 - \$224.0) and properties held for sale of \$22.2 (March 31, 2018 - \$5.5).

Inventory is recorded at the lower of cost and net realizable value.

The corporation incurred expenditures of \$12.2 during the third quarter and \$26.7 year-to-date as compared to \$25.3 in the comparable prior year third quarter and \$44.1 in the comparative prior year-to-date. Spending on inventories varies year-over-year based on required and planned expenditures on those properties to prepare them for sale.

Investment properties

Investment properties are principally comprised of land located in Toronto on which the Rogers Centre is built and surrounding the CN Tower Base, along with certain properties at PDP.

Property, plant and equipment

Property, plant and equipment consist principally of the CN Tower, Downsview Park, the Plaza Garage, the John Street Parkette, the Montreal Science Centre, quays, bridges, the Old Port office building and land, vehicles, exhibitions, and computers and office equipment. Capital expenditures are made to property, plant and equipment to maintain and enhance the high quality of the infrastructure. There were capital additions of \$1.3 for the third quarter, compared with \$9.9 during the comparable prior year third quarter. Year-to-date the corporation has invested \$9.1 compared to \$20.0 in the comparable prior year period. Capital expenditures vary period over period based on required and planned expenditures on the property, plant and equipment.

On June 26, 2018, the CN Tower unveiled its new, modern Lookout level after investing close to \$16.0. The renovated Lookout level includes new floor-to-ceiling class "Window Walls" which enable greater accessibility to panoramic views of Toronto. It also includes an all new glass floor, installed directly above the original, one level below, and new food bistros.

During the first quarter, OPMC completed its major infrastructure project to repair and upgrade the King Edward parking structure, as well as the upgrades to its versatile Belvedere event space.

There were non-cash depreciation charges against property, plant and equipment of \$3.3 during the third quarter and \$9.5 year-to-date, compared to \$3.7 in the comparable prior period third quarter and \$11.0 during the comparable prior year-to-date. These expenditures exclude repairs and maintenance costs.

Year-to-date, the investment in OPMC property, plant and equipment resulted in an accounting impairment as the fair value was \$0.2 lower than the carrying value.

Cash and cash equivalents

The corporation continues to maintain high levels of liquidity which will allow it to react to future potential opportunities that may require significant amounts of cash. At December 31, 2018, cash and cash equivalents balances held in major Canadian chartered banks and financial institutions were \$442.9, compared to \$453.5 at March 31, 2018.

Within 12 months, the corporation's cash and cash equivalents are expected to be used to repay \$263.6 in current promissory notes and profit sharing liabilities.

Deferred tax asset

The deferred tax asset amount of \$99.1 principally relates to the temporary differences between the carrying values of assets and liabilities for financial reporting purposes which are lower than the amounts used for taxation purposes at Downsview Park. The majority of the deferred tax asset is expected to be realized upon the sale of development lands in future years. During the first quarter, a portion of the deferred tax asset was reduced as non-capital losses from prior years were used against the gain on sale of assets.

Long-term receivables

Long-term receivables of \$57.8 include amounts receivable from partners from joint venture cash flows. The decrease in the balance from March 31, 2018 is principally the result of repayments on receivables from partners.

Trade and other assets

Trade and other assets include current income taxes recoverable, rent and other receivables, prepaid assets, and CN Tower inventory.

LIABILITIES AND SHAREHOLDER'S EQUITY

The corporation's assets are financed with a combination of debt and equity. The components of liabilities and equity are as follows:

	December 31, 2018	March 31, 2018
Credit facilities	\$ 14.5	\$ 41.5
Notes payable	419.6	428.0
Trade and other payables	23.6	33.0
Profit sharing payable	78.2	78.2
Provisions	28.4	29.8
Prepaid rents, deposits and others	9.1	8.0
Deferred revenue	5.3	4.9
Tax liabilities and other	14.1	12.2
Total liabilities	\$ 592.8	\$ 635.6
Contributed surplus	181.2	181.2
Retained earnings	457.6	412.3
	638.8	593.5
Total liabilities and shareholder's equity	\$ 1,231.6	\$ 1,229.1

Credit facilities

The corporation has two credit facilities.

PDP has an unsecured demand revolving credit facility for \$100.0. The credit facility can be used by way of loans, bankers' acceptances and letters of credit. PDP has utilized \$27.9 at December 31, 2018 (March 31, 2018 - \$52.2) of which \$13.4 (March 31, 2018 - \$10.7) has been used as collateral for letters of credit outstanding. The other proceeds from the credit facility have been used to finance the construction and

development of PDP projects and the repayment of notes payable.

CLC has a senior, unsecured revolving credit facility in the amount of \$100.0. The credit facility can be used to secure outstanding letters of credit. LC has utilized \$25.4 at December 31, 2018 (March 31, 2018 - \$33.1) as collateral for letters of credit outstanding.

Notes payable

Notes payable are issued in consideration for the acquisition of real estate properties and are due to the Government of Canada. These notes are repayable on the earlier of their due dates from 2018 to 2050 or the dates on which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the note state when the issuer can demand payment and are not dependent on property cash flows. Of the notes payable, \$22.0 is due on demand by the former custodians. For all notes, the government can elect to defer amounts that are due and repayable. All notes are non-interest bearing, however for accounting purposes are required to be fair valued at acquisition. As a result, for accounting purposes, a note payable may be discounted, depending on the specific characteristics of the notes payable (see "Critical Accounting Estimates" section), which could result in non-cash interest charge.

Based on the anticipated timing of the sale of the real estate properties and the specific repayment requirements within the notes, principal repayments are estimated to be as follows:

YEARS ENDING MARCH 31 (REMAINDER OF YEAR)	2019	\$	13.5
	2020		170.6
	2021		9.3
	2022		44.9
	2023		5.0
	Subsequent years		210.8
Subtotal			454.1
Less: amounts representing imputed interest			34.5
		\$	419.6

Trade and other payables

Trade and other payables are lower than the balance at March 31, 2018 primarily as a result of timing. All trade and other payables are trade payables and accrued liabilities incurred in the normal course of operations.

Profit sharing payable

Under the terms of the corporation's acquisition agreement of purchase and sale for certain properties with the previous federal custodian, Public Services and Procurement Canada ("PSPC"), the corporation and PSPC shared equally in the net profit from the sales. The corporation continues to hold \$78.2 in liabilities from transactions in previous years that the custodian has deferred payment of.

Provisions

Provisions represent obligations of the company where the amount or timing of payment is uncertain and are comprised largely of costs to complete sold real estate projects and payment in lieu of taxes being contested by the corporation.

Prepaid rents, deposits and others

Prepaid rents, deposits and others are largely comprised of real estate sales deposits by purchasers and builder deposits, which are part of the normal course of operations.

Deferred revenue

Deferred revenue represents revenue from rental/leasing, programs and events, and development and other income which has not yet been earned by the corporation.

Tax liabilities and other

Tax liabilities represent the current taxes payable and the future tax liabilities of the corporation resulting

from the temporary differences between the carrying values of assets and liabilities for financial reporting purposes which are higher than the amounts used for taxation purposes.

CAPITAL RESOURCES AND LIQUIDITY

At December 31, 2018, the corporation had approximately \$52.9 of cash on hand, and \$390.0 of cash equivalents consisting of term deposits maturing within 21 days. Cash and cash equivalents provided by operating and investing activities totaled \$6.8 for the third quarter and \$40.0 year-to-date. During the third quarter, the corporation has invested \$12.2 in inventory and \$1.3 in property, plant and equipment and investment properties. Year-to-date, the corporation has invested \$26.7 in inventory and \$9.1 in property, plant and equipment and investment properties. The corporation funded these investments and expenditures through net income from operations, existing cash and cash equivalent balances, and borrowings from credit facilities.

The corporation's principal liquidity needs, which include those of its subsidiaries, over the next twelve months are to:

- fund recurring expenses;
- manage current credit facilities;
- fund the continuing development of its inventory and investment properties;
- fund capital requirements to maintain and enhance its property, plant and equipment;
- fund investing activities, which may include:
 - property acquisitions;
 - note repayments;
 - discretionary capital expenditures;
- fund the operating deficit of OPMC;
- fund the profit-sharing payments to PSPC; and
- make distributions to its shareholder.

The corporation believes that its liquidity needs will be satisfied using cash and cash equivalents on hand, available unused credit facilities, and cash flows generated from operating and financing activities.

Beyond twelve months, the corporation's principal liquidity needs, including those of its subsidiaries, are credit facility repayments, note repayments, recurring and non-recurring capital expenditures, development costs, and potential property acquisitions. The corporation plans to meet these needs through one or more of the following:

- cash flow from operations;
- proceeds from sale of assets; and
- credit facilities and refinancing opportunities.

RISK MANAGEMENT

The corporation uses a practical approach to the management of risk. The objective of the corporation's risk management approach is not to completely eliminate risk but rather to optimize the balance between risk and the best possible benefit to the corporation, its shareholder and its local communities.

The Board of Directors have overall responsibility for risk governance and oversees management in identifying the key risks the corporation faces, and in implementing appropriate risk assessment processes to manage these risks. Senior management are accountable for identifying and assessing key risks, defining controls and actions to mitigate risks, while continuing to focus on the operational objectives of the corporation.

The corporation updates its enterprise risk assessment regularly to review, prioritize and mitigate against the key risks identified. The assessment includes reviewing risk reports, Internal Audit reports, and industry information, and interviewing senior management across the corporation.

The corporation's Internal Audit assists in evaluating the design and operating effectiveness of internal controls

and risk management. Through the annual Internal Audit plan, the risks and controls identified are considered and incorporated for review.

The corporation's financial results are affected by the performance of its operations and various external factors influencing the specific sectors and geographic locations in which it operates, as well as macroeconomic factors such as economic growth, inflation, interest rates, foreign exchange, regulatory requirements and initiatives, and litigation and claims that arise in the normal course of business.

RISKS AND UNCERTAINTIES

The following section describes factors that the corporation believes are material and that could adversely affect the corporation's business, financial condition and result of operations. The risks below are not the only risks that may impact the corporation. Additional risks not currently known or considered immaterial by the corporation may also have a material adverse effect on the corporation's future business and operations.

GENERAL MACROECONOMIC RISKS

The corporation's business segments, real estate and attractions, are affected by general economic conditions, including economic activity and economic uncertainty, along with employment rates and foreign exchange rates. According to the Bank of Canada's ("BoC") January 2019 Monetary Policy Report, Canada's real gross domestic product ("GDP") growth for 2018 is expected to be 2.0%. The BoC expects more similar growth in the GDP in 2019 and 2020 at 1.7% and 2.1%, respectively. In the same report, the BoC expects the Consumer Price Index ("CPI") to fluctuate narrowly around 2 per cent over the short-term, specifically forecasting a CPI increase of 2.3% in 2018, 1.7% in 2019 and 2.0% in 2020.

In December 2018, the Canadian unemployment rate was 5.6%, its lowest rate since data became available in 1976. According to a number of forecasts, Canada's unemployment rate is expected to remain relatively low compared to historical unemployment rates. In 2019, the unemployment rate is expected to increase slightly with projections ranging from 5.8% to 6.3%, followed by further moderate increases to the unemployment rate in 2020.

Interest rates in Canada have been on the rise over the past 12 months, moving away from their historically low levels. The BoC has raised its benchmark interest rate from 0.5% at July 1, 2017 to 1.75% on October 24, 2018, where it continues to remain. Predictions are the BoC may continue to increase its interest rate over the next year, with some analysts expecting the benchmark interest rate to raise to between 2.0% and 2.25% by the end of 2019. As interest rates rise, the cost of mortgages rises as well. With a number of real estate markets already stretched in terms of affordability, an increase in borrowing costs could impact the real estate market. Higher interest rates also impact the amount of disposable income households have for discretionary spending on items such as entertainment, meals, and attractions.

REAL ESTATE SECTOR RELATED RISKS

Real estate is generally subject to risk given its nature, with each property being subject to risks depending on its specific nature and location. Certain significant expenditures, including property taxes, maintenance costs, insurance costs, and related charges, must be made regardless of the economic conditions surrounding the property, but the timing of other significant expenditures is discretionary and can be deferred. In the latest published version of the annual housing market outlook ("HMO") by Canadian Mortgage and Housing Corporation ("CMHC") in the fall of 2018, CMHC forecasts that housing starts will slow gradually over 2018 to 2020, aligning more with a moderate economic outlook and demographic conditions. Gross Domestic Product ("GDP") and household income are expected to stabilize to a more sustainable pace, while mortgage rates are forecasted to continue to gradually increase. Overall, demand for housing is expected to moderate and resale market conditions are expected to ease. Housing starts in the CMHC HMO are forecast to range from 204,500 to 213,100 (Q4 2017 CMHC outlook forecast - 192,200 to 203,300) in 2018, from 193,700 to 204,500 in 2019 (Q4 2017 CMHC outlook forecast - 192,300 to 203,800) and from 189,300 to 201,300 in 2020. The actual amount of housing starts in 2015, 2016, and 2017 were 195,500, 197,900, and 219,800 respectively.

The outlook for the Canadian housing sector is one of variability across the country, and there are significant risks

and uncertainties, particularly in certain local markets. Benchmark oil prices, currently trading around US\$54 per barrel (October 2018 – US\$62 per barrel), remain the most significant risk and uncertainty limiting growth. Canadian oil prices are trading at a discount to the benchmark global oil prices, however Canadian oil prices have improved significantly compared to US oil prices over the last quarter. In late October 2018, Canadian oil prices were trading in around \$40/barrel less than the US, whereas at the end of January 2019, the discount for Canadian is closer to \$10/barrel. Oil prices, particularly the discount on Canadian oil prices, has a significant impact on the Newfoundland, Saskatchewan and particularly Alberta's economy, including its housing demand through effects on employment and household income.

In its Q4 2018 Housing Market Assessment ("HMA"), CMHC continued to issue its 'red' warning indicating a high degree of vulnerability at the national level. CMHC continues to cite price acceleration and overvaluation as indicators that there is a moderate degree of overall vulnerability in the overall Canada market. However, the HMA did note that conditions of overvaluation eased in Canada as a whole. CMHC noted that the decrease in housing prices are more in line with underlying fundamentals, but is still maintaining a moderate rating on overvaluation until a more prolonged period of improved alignment of housing prices and underlying fundamentals is observed.

The Toronto and Vancouver housing markets continue to be identified as having strong evidence of problematic conditions by CMHC.

In Toronto, CMHC's assessment continues to be driven by strong evidence of overvaluation and moderate evidence of price acceleration and overheating. However, CMHC did note declining prices accompanied by growing incomes and population are easing overvaluation conditions.

In Vancouver, CMHC's assessment is driven by the combination of moderate evidence of over price acceleration and overheating, and strong evidence of overvaluation. Despite declining prices for properties in different segments of the resale market, home price growth has still significantly outpaced local income growth over the past few years.

In its Q4 2018 HMA, CMHC continues to maintain that the problematic conditions in Calgary are moderate, citing overbuilding concerns. The number of completed and unsold units continues to persist at elevated levels as vacancy rates remain high. Calgary has seen a decline in housing prices which further supports the low vulnerability on price acceleration. Edmonton continues to be identified as having moderate evidence of problematic conditions due to overbuilding, as vacancy rates and unsold units remain at relatively high levels. Ottawa's evidence of problematic conditions remains characterized as low as unsold inventory levels continue to reduce and strong price growth is coupled with strong growth in employment.

The corporation mitigates its real estate sector risk through constant assessment and monitoring of local market conditions. The corporation may adjust the amount and/or timing of expenditures on properties or sales as a response to the market conditions.

ATTRACTIONS SECTOR RELATED RISKS

The CN Tower's and OPMC's operations have been directly linked to the performance of the tourism sector in Toronto and Montreal, respectively. The number of visitors to the CN Tower is also related to both the seasons and daily weather conditions.

Visitors from outside of the local market comprise a significant portion of CN Tower visitors. A significant number of visitors to OPMC and the CN Tower travel from the United States ("US").

The Canadian dollar continues to be stable against the US dollar, trading at around \$1.31 to US\$1.00.

Overall, a devalued Canadian dollar against other currencies, particularly the US dollar, does impact CN Tower and OPMC revenues favourably due to stronger consumer buying power. A devalued Canadian dollar may deter local visitors from travelling abroad, opting for "staycations" instead. Conversely, a strong Canadian dollar has the opposite impact on the CN Tower and OPMC results. The CN Tower and OPMC's costs are not significantly impacted by foreign currency fluctuations.

At OPMC the number of visitors is a significant factor in its results. To continue to draw visitors, OPMC, including the MSC, needs to continue to invest in its current attractions and exhibits, and partner with various organizations, while developing new exhibits and attractions, to refresh its offerings to visitors. OPMC mitigates these risks by actively managing and adjusting its advertising spend, and by hosting new

attractions and events, while also focusing on existing major events, to increase the total number of visitors.

CYBER SECURITY RISKS

Cyber security has ceased to be an emerging risk and is now a strategic risk that needs to be actively managed by businesses in Canada and around the world. Cyber-attacks, and the criminals that perpetrate them, are continually evolving the sophistication of how they target and who they target. It is critical that businesses protect against financial fraud, the loss of sensitive data, and/or the disruption of business operations. Successful attacks could compromise the corporation's confidential information as well as the trust that stakeholders have in the corporation's ability to hold and secure sensitive data and information. Those attacks may result in negative consequences, including remediation costs, loss of revenue, litigation and reputational damage. The corporation invests in technologies, as well as the education and training of its staff, to safeguard its information and continually reviews its strategies to align with industry best practices. As cyber risk and cybercrime continue to evolve, this may require shifts in strategies and investment. The corporation will continue to invest in new technologies, reinvest in its education and training of staff, and review, with the assistance of third-party experts, its prevention and detection techniques and its crisis management plans.

INTEREST RATE AND FINANCING RISKS

The corporation believes it has effectively managed its interest rate risk. The corporation's notes payable are non-interest bearing, and repayable on the earlier of their due dates between 2018 to 2050 or the dates which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the note state when the issuer can demand payment and are not dependent on property cash flows.

The corporation is exposed to interest rate risk on its two credit facilities and cash and cash equivalents. Cash and cash equivalents earn interest at the prevailing market interest rates and have limited exposure to interest rate risk due to their short-term nature. Credit facility borrowings bear interest at fixed and variable interest rates. Variable interest borrowings are exposed to interest rate risk. The impact of a change in the interest rate of +/- 0.5% would not be significant to the corporation's earnings or cash flow.

The corporation believes that these financing instruments adequately mitigate its exposure to interest rate fluctuations. The corporation believes that the repayment terms of its notes, in conjunction with management's estimated cash flows from projects, will adequately provide it with proceeds to discharge the notes on their due dates and repay outstanding credit facilities.

If the corporation were not able to renew existing credit facilities at reasonable rates, then acquisition or development activities could be curtailed or asset sales accelerated. However, the corporation anticipates renewing existing credit facilities at reasonable rates based on the quality of its assets and strength of its financial position.

CREDIT RISK

Credit risk arises from the possibility that tenants and purchasers may experience financial difficulty and be unable to pay the amounts owing under their commitments.

The corporation has attempted to reduce the risk of credit loss by limiting its exposure to any one tenant or industry and doing credit assessments in respect of new leases and credit transactions. Also, this risk is further mitigated by signing long-term leases with varying lease expirations. Credit risk on land sale transactions is mitigated by strong minimum deposit requirements, cash land sales, and recourse to the underlying property until the purchaser has satisfied all financial conditions of the sale agreement.

The corporation's trade receivables are comprised almost exclusively of current balances owing. The corporation continues to monitor receivables frequently, and where necessary, establish an appropriate provision for doubtful accounts. At December 31, 2018, the balance of rent and other receivables was \$39.3 (March 31, 2018- \$36.3).

The corporation has long-term receivables of \$57.0 due from its partners in Vancouver land

acquisitions. The long-term receivables are non-interest bearing and payable out of cash flows from the joint ventures. The projected cash flows from the joint ventures are significantly higher than the amount of the long-term receivables at December 31, 2018.

ENVIRONMENTAL RISKS

As the owner of real property, the corporation is subject to various federal, provincial and municipal laws relating to environmental matters. Such laws provide that the company could be liable for the costs of removing certain hazardous substances and remediating certain hazardous locations. The failure to remove or remediate such substances or locations, if any, could adversely affect the corporation's ability to sell such real estate. The corporation is not aware of any material non-compliance with environmental laws at any of its properties, nor is it aware of any investigations or actions pending or anticipated by environmental regulatory authorities in connection with any of its properties or any pending or anticipated claims related to environmental conditions at its properties.

The corporation will continue to make the capital and operating expenditures necessary to ensure that it is compliant with environmental laws and regulations.

OTHER KEY RISKS

Labour disruptions, particularly at the corporation's key attractions, are a financial and reputational risk. The corporation mitigates these risks through its labour relations strategies, which include active management and planning.

Physical security at the corporation's properties, particularly its attraction sites, is extremely important, particularly given the current global climate and the visibility of the corporation's sites. The corporation mitigates the risk of business disruption and as reputational risk by continually investing in its security technology and deterrents, engaging with third party experts to perform security and safety reviews, and reviewing, updating and performing tests of its security protocols.

The overall nature of real estate development projects and the corporation's attractions are that they are highly visible to the public. The corporation's strategy to mitigate the risk of adverse media is to pro-actively engage with its stakeholders, be responsive, and following established communications protocols.

GUARANTEES AND CONTINGENT LIABILITIES

The corporation may be contingently liable with respect to litigation and claims that arise in the normal course of business. The corporation's holdings and potential acquisition of properties from the government are impacted by Aboriginal land claims. The corporation continues to work with various government agencies and organizations to assist in establishing a process whereby such surplus lands could be transferred to the corporation. Disclosure of commitments and contingencies can be found in Notes 12 and 13 of the consolidated financial statements for the period ended December 31, 2018.

RELATED PARTIES

The corporation is wholly owned by the Government of Canada and is under common control with other governmental agencies and departments, and Crown corporations. The corporation enters into transactions with these entities in the normal course of business. Significant transactions with related parties during the period were as follows:

DECEMBER 31	FOR THREE MONTHS ENDED		FOR NINE MONTHS ENDED	
	2018	2017	2018	2017
Rental, leasing and other revenues	\$ 0.4	\$ 0.6	\$ 1.3	\$ 1.6
Acquisition of property through non-interest bearing notes (principal amount)	-	12.0	-	12.0
Repayment of notes payable	13.5	-	13.5	-
Dividend paid to shareholder	10.0	-	10.0	-

The consolidated balance sheet includes the following balances with related parties:

	DECEMBER 31, 2018	MARCH 31, 2018
Net trade receivable and other from federal agencies and departments, excluding Government funding payable	\$ -	\$ 0.1
Accounts payable on profit sharing	78.2	78.2
Notes payable	419.6	428.0

NEW ACCOUNTING PRONOUNCEMENTS

Effective April 1, 2018, the corporation adopted new accounting standards that are discussed in the Note 2 of the corporation's consolidated financial statements. The adoption of IFRS 15 *Revenue from contracts with customers*, did not impact the corporation's results during the quarter, but has resulted in a new accounting policy for revenue recognition. Similarly, the adoption of IFRS 9 *Financial Instruments*, ("IFRS 9") did not impact the corporation's results during the quarter. The adoption of IFRS 9 did impact the corporation's accounting policies for financial instruments.

The corporation early adopted IFRS 16 *Leases* ("IFRS 16") on April 1, 2018. The adoption of IFRS 16 impacted the accounting policy for property, plant and equipment as disclosed in note 2 of the corporation's consolidated financial statements. The impact to the results of the corporation were immaterial, but the adoption did require the recognition of approximately \$4.2 million in right-of-use assets, \$4.2 million in leases payable, and the adjustment of the disclosure in note 17 Leases in the corporation's consolidated financial statements.

CRITICAL ACCOUNTING ESTIMATES

The discussion and analysis of the financial condition and financial performance of the corporation is based on the consolidated financial statements, which are prepared in accordance with IFRS. The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities and the reported amounts of revenues and expenses for the periods of the consolidated financial statements.

Judgments, estimates and assumptions are evaluated on an ongoing basis. Estimates are based on independent third-party opinion, historical experience and other assumptions that management believes are reasonable and appropriate in the circumstances. Actual results could differ materially from those assumptions and estimates.

Management believes the most critical accounting estimates are as follows:

I. Inventories and real estate cost of sales

In determining estimates of net realizable values for its properties, the corporation relies on assumptions regarding applicable industry performance and prospects, as well as general business and economic conditions that prevail and are expected to prevail. Assumptions underlying asset valuations are limited by the availability of reliable comparable data and the uncertainty of predictions concerning future events. Due to the assumptions made in arriving at estimates of net realizable value, such estimates, by

nature, are subjective and do not necessarily result in an accurate determination of asset value.

In arriving at such estimates of net realizable value of the properties, management is required to make assumptions and estimates as to future costs which could be incurred in order to comply with statutory and other requirements. Also, estimates of future development costs are used to allocate current development costs across project phases. Such estimates are, however, subject to change based on agreements with regulatory authorities, changes in laws and regulations, the ultimate use of the property, and as new information becomes available.

The corporation produces a yearly corporate plan that includes a proforma analysis of the projects, including expected revenues and projected costs. This analysis is used to determine the cost of sales recorded and net realizable value. This proforma analysis is reviewed periodically, and when events or circumstances change, and is then updated to reflect current information.

II. Measurement of Fair Values

Where the fair values of financial assets, investment properties and financial liabilities as disclosed in the notes to the consolidated financial statements cannot be derived from active markets, they are determined using valuation techniques, including discounted cash flow models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value. The corporation's assessments of fair values of investment properties are regularly reviewed by management with the use of independent property appraisals and internal management information.

The fair value of all financial instruments and investment properties must be classified in fair value hierarchy levels, which are as follows:

Level 1 (L1) – Financial instruments are considered Level 1 when valuation can be based on quoted prices in active markets for identical assets or liabilities.

Level 2 (L2) – Financial instruments are considered Level 2 when valued using quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or models using inputs that are observable.

Level 3 (L3) – Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable.

The critical estimate and assumptions underlying the valuation of financial assets, investment properties and financial liabilities are set out in the financial statements in notes 5 and 22 of the financial statements.

III. Significant Components and Useful Lives

The useful lives and residual values of the corporation's assets are determined by management at the time the asset is acquired and reviewed annually for appropriateness. The useful lives are based on historical experience with similar assets, as well as anticipation of future events.

Management also makes judgments in determining significant components. A component or part of an item of property, plant and equipment or an investment property is considered significant if its allocated cost is material in relation to the total cost of the item. Also, in determining the parts of an item, the corporation identifies parts that have varying useful lives or consumption patterns.

IV. Interest Rate on Notes Payable to the Government of Canada

Notes payable are issued in consideration of the acquisition of real estate properties and are due to the Government of Canada. These notes are repayable on the earlier of their due dates or the dates on which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the note state when the issuer can demand payment and are not dependent on property cash flows. For those notes that do not state when the issuer can demand payment, the repayment schedule is based on estimates of the time period and cash flows of the property. The notes are

non-interest bearing. The non-interest bearing notes are discounted using an imputed fixed interest rate. The imputed interest is accrued and capitalized to properties or expensed, as appropriate.

V. Impairments and Write-Downs

Management reviews assets annually, as part of the corporate planning process, and when events or circumstances change.

For inventories, a write-down is recorded when the net realizable value of anticipated net sales revenue is less than the sum of the book value of the property and its anticipated costs to complete. The net realizable value is based on projections of future cash flows, which take into account the specific development plans for each project and management's best estimate supported by independent appraisal of the most probable set of economic conditions anticipated to prevail in the market.

For other assets, such as investment properties and property, plant and equipment, impairment estimates are made based on analysis of cash-generating units as described in note 2f) of the consolidated financial statements and are recorded if the recoverable amount of the property is less than the book value. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs of disposal and its value in use. The corporation estimates the fair value less costs of disposal using the best information available to estimate the amount it could obtain from disposing of the assets in an arm's-length transaction, less the estimated cost of disposal. The corporation estimates value in use by discounting estimated future cash flows to their present value using a pre-tax rate that reflects current market assessments of the time value of money and the specific risks of the asset. The determination of the present value of estimated cash flows requires significant estimates, such as future cash flows and the discount rate applied.

VI. Income Taxes

The corporation relies on estimates and assumptions when determining the amount of current and deferred tax, and takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due.

ACQUISITIONS AND PROSPECTS

On September 30, 2014, the corporation entered into three joint venture agreements with the same third-party partner for three separate land parcels in Vancouver (collectively the Vancouver lands) totaling approximately 80 acres (32-hectares). Each of the parcels in the Vancouver area lands are jointly controlled by the corporation and its partner with each having a 50% interest in the property area. The fair value of the Vancouver lands is approximately \$307 which was funded through non-interest bearing notes payable with principal amounts totaling \$221 and contributed capital by the partner. The corporation is obligated to repay the entire notes payable balance, of which a portion will be partially funded by long-term receivables from the partners. The long-term receivables from the partners will be repaid from cash flows from the joint ventures. The Vancouver lands are accounted for using joint operations accounting and as a result the corporation has consolidated their share of the assets, liabilities, revenues and expenses.

On December 14, 2018, the corporation sold its ownership interest in one of the three joint ventures in Vancouver to its third-party partner. As part of the transaction, the corporation collected the long-term receivable owing from the third-party for their portion of the promissory note owing on the property.

In February 2017, as part of the acquisition of the Lebreton lands, the corporation entered into a joint venture agreement with the Algonquins of Ontario Opportunities ("AOO") for the Lebreton lands. The structure of the joint venture is similar to that described for the Vancouver lands above. The joint venture is jointly controlled by the corporation and the third-party partner based on the terms of the joint venture agreement. The property interest is shared two-thirds by the corporation and one-third by the third-party partner. The fair value of the property is approximately \$9.3 which was funded through a non-interest bearing notes payable for the entire amount. The corporation is obligated to repay the entire notes payable balance, of which \$3.1 (one-third) will be funded by long-term receivables from the partner. Similar to the

Vancouver lands, the Lebreton land is accounted for using joint operations accounting and as a result the corporation has consolidated their share of the assets, liabilities, revenues and expenses.

Year-to-date, the corporation, through PDP, acquired five acres of property adjacent to its existing PDP lands as part of the series of transactions with a neighbouring land owner.

The corporation has a land bank of approximately 1,160 acres (470 hectares) at December 31, 2018.

The corporation is currently in negotiations with government departments and agencies regarding a further acquisition of 5,050 acres (2,040 hectares). As many of the properties and portfolios potentially available for acquisition are substantial in size, planning, development and reintegration of these properties into local communities will take place over a number of years. Although the corporation is vulnerable to adverse changes in local real estate market conditions which can affect demand, the corporation's geographic diversity mitigates the risk of an adverse impact of a downturn in a single market.

The corporation's major residential developments are in St. John's, Newfoundland and Labrador, Halifax, Nova Scotia, Montreal, Quebec, Toronto and Ottawa, Ontario, Edmonton and Calgary, Alberta and Vancouver, British Columbia. In most of these projects, the corporation has interim rental operations which between them generate revenue in excess of any holding costs.

The corporation's recent sales activities demonstrate that there is ongoing demand for its land holdings and it can continue to create significant benefits and/or value from its property portfolio, which is diverse as to location, value, size and current or potential uses.

The corporation has estimated income before tax of \$367.0 for the five years ending March 31, 2023 based on the latest approved Annual Corporate Plan. The corporation expects to continue to be financially self-sufficient, while providing both financial benefits, in the form of a reliable dividend stream, and non-financial benefits to the Government of Canada.

DECLARATION

We, John McBain, President and Chief Executive Officer, and Matthew Tapscott, Vice President Finance and Chief Financial Officer, certify that:

We have reviewed the condensed consolidated interim financial statements of Canada Lands Company Limited for the period ended December 31, 2018.

Based on our knowledge, the condensed consolidated interim financial statements do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the fiscal period covered by this report; and

Based on our knowledge, the condensed consolidated interim financial statements together with the other financial information included in this report fairly present in all material respects the financial position, financial performance and cash flows of Canada Lands Company Limited, as of the date and for the years presented in this report.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The condensed consolidated interim financial statements of Canada Lands Company Limited (the corporation) have been prepared by management of the corporation in accordance with International Financial Reporting Standards.

Management maintains financial and management reporting systems which include appropriate controls to provide reasonable assurance that the corporation's assets are safeguarded, to facilitate the preparation of relevant, reliable and timely financial information, and to ensure that transactions are in accordance with Part X of the *Financial Administration Act* and regulations, the *Canada Business Corporations Act*, and the articles and by-laws of the corporation.

Based on our knowledge, these condensed consolidated interim financial statements present fairly, in all material respects, the corporation's financial position as at December 31, 2018 and March 31, 2018 and its financial performance and cash flows for the periods ended December 31, 2018 and 2017.

Where necessary, management uses judgment to make estimates required to ensure fair and consistent presentation of this information.

The Board of Directors of Canada Lands Company Limited is composed of six directors, none of whom are employees of the corporation. The Board of Directors has the responsibility to review the financial statements, as well as overseeing management's performance of its financial reporting responsibilities. An Audit Committee appointed by the Board of Directors of the corporation has reviewed these condensed consolidated interim financial statements with management, and has reported to the Board of Directors. The Board of Directors has approved the condensed consolidated interim financial statements.

All other financial and operating data included in the report are consistent, where appropriate, with information contained in the condensed consolidated interim financial statements.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the period ended December 31, 2018 (expressed in thousands of Canadian dollars)

1. AUTHORITY AND ACTIVITIES OF CLCL

Canada Lands Company Limited (“CLCL” or the “corporation”) is an agent Crown corporation and its sole shareholder is the Government of Canada. Originally named Public Works Lands Company Limited, CLCL was incorporated under the Companies Act in 1956 and was continued under the Canada Business Corporations Act. It is listed as a parent Crown corporation in Part I of Schedule III to the Financial Administration Act (“FAA”).

CLCL is the parent company of Canada Lands Company CLC Limited (“CLC”), Parc Downsview Park Inc. (“PDP”), and the Old Port of Montreal Corporation Inc. (“OPMC”), collectively referred to as the CLCL Subsidiaries.

CLCL conducts its real estate business operations through CLC and PDP’s development lands (“Downsview lands”), two of its wholly-owned subsidiaries. CLCL’s objective is to carry out a commercially oriented and orderly disposal program of certain former real properties of the Government of Canada (“Government”) and the management of certain select properties. CLCL’s hospitality and tourism operations include Canada’s National Tower (“CN Tower”), the Montreal Science Centre (“MSC”), the park owned by PDP (“Downsview Park”) and Old Port of Montreal.

In December 2014, CLCL, together with a number of other Crown corporations, was issued a directive (P.C. 2014-1379) pursuant to Section 89 of the FAA entitled “Order directing Canada Lands Company Limited to implement pension plan reforms.” This directive was intended to ensure that pension plans of Crown corporations that provide a 50:50 current service cost-sharing ratio between employees and employer for pension contributions had been phased in for all members by December 31, 2017. As at December 31, 2017, the corporation had fully implemented the requirements of the directive and has remained in compliance with the directive since that date.

In July 2015, CLCL was issued a directive (P.C. 2015-1113) pursuant to section 89 of the FAA. This directive was to align CLCL’s travel, hospitality, conference and event expenditure policies, guidelines and practices with Treasury Board policies, directives and related instruments on travel, hospitality, conference and event expenditures in a manner that was consistent with the corporation’s legal obligations. As at March 31, 2016, the corporation had fully implemented the requirements of the directive and has remained in compliance with the directive since that date. The corporation continues to report on the implementation of this directive in its Corporate Plan.

The registered office of the corporation is 1 University Avenue, Suite 1700, Toronto, Ontario, M5J 2P1.

The consolidated financial statements were approved by the Board of Directors of the corporation on February 21, 2019.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A) STATEMENT OF COMPLIANCE

The consolidated financial statements of the corporation have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

B) BASIS OF PRESENTATION

CLCL’s consolidated financial statements have been prepared on a historical cost basis, except where otherwise indicated. The consolidated financial statements are prepared on a going concern basis and have been presented in Canadian dollars, the corporation’s functional currency, rounded to the nearest thousand. The accounting policies set out below have been applied consistently in all material respects to all years presented in these consolidated financial statements, unless otherwise stated.

C) BASIS OF CONSOLIDATION

The consolidated financial statements include the accounts of the corporation and its subsidiaries, which are the entities over which the corporation has control. Control exists if the investor possesses power over the investee, has exposure to the variable returns from its involvement with the investee and has the ability to use its power over the investee to affect its returns. The accounts of CLC, PDP and OPMC, wholly-owned subsidiaries of CLCL, are consolidated with CLCL’s accounts.

The Montreal Science Centre Foundation (“MSCF”) is a structured entity that is consolidated as the corporation has concluded that it controls it. DPF lost its charity status and was dissolved. The impact on CLCL’s financial statements was immaterial as the DPF has been inactive for a number of years. The MSCF is a not-for-profit organization founded in 2000. It manages the funds and fund-raising activities for the sole benefit of the MSC. The MSCF must remit all funds to OPMC to be used for activities of the MSC. The Downsview Park Foundation (“DPF”) was created to assist with the development of PDP by generating financial support and gifts from corporations and the public.

When the corporation has less than a majority of the voting or similar rights of an investee, the corporation considers all relevant facts and circumstances in assessing whether it controls the investee.

The corporation re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements that constitutes control. Consolidation of a subsidiary begins when the corporation obtains control over the subsidiary and ceases when the corporation loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Consolidated Statement of Comprehensive Income from the date the corporation gains control until the date the corporation ceases to control the subsidiary.

When necessary, adjustments are made to subsidiaries to bring their accounting policies in line with the corporation’s accounting policies.

All inter-company transactions, balances, unrealized losses and unrealized gains on transactions between CLCL, its subsidiaries and the two foundations noted above have been eliminated.

D) REVENUE RECOGNITION

The corporation recognizes revenue as follows:

I. Real estate sales

Real estate sales revenue is recognized at the time when control over the property has been transferred to the customer. Until this criterion is met, any proceeds received are accounted for as customer deposits. Revenue is measured based on the transaction price agreed to under the contract.

II. Rental

The corporation has retained substantially all of the risks and benefits of ownership of its investment properties and therefore accounts for leases with its tenants as operating leases. The corporation also leases certain property classified as property, plant and equipment to tenants. Revenue recognition under a lease commences when the tenant has a right to use the leased asset. Generally, this occurs on the lease inception date or, where the corporation is

required to make additions to the property in the form of tenant improvements which enhance the value of the property, upon substantial completion of those improvements. Tenant improvements provided in connection with a lease are recognized as an asset and expensed on a straight-line basis over the term of the lease. The total amount of contractual rent to be received from operating leases is recognized on a straight-line basis over the term of the non-cancellable portion of the leases and any further terms, at the lessee's option, that are reasonably certain to be exercised, for leases in place; a straight-line rent receivable, which is included in trade receivables and other, is recorded for the difference between the rental revenue recorded and the contractual amount received.

Rental operating revenue also includes percentage participating rents and recoveries of operating expenses, including property taxes. Rental operating expense recoveries are recognized in the period that recoverable costs are chargeable to tenants.

III. Rental from incidental activities

In addition to earning rental revenues from leases associated with investment properties, the corporation also earns rental revenues from lease arrangements with tenants on certain commercial and residential development properties in inventory. These lease arrangements are generally short-term and renewable on an annual basis and considered incidental to the related land development activities. As described in note 2n)i), the corporation has applied judgment in determining that the commercial and residential development properties from which rental from incidental activities is derived are classified and carried as inventory instead of investment property. The revenue recognition policy for the related lease arrangements is consistent with the policy applied in lease arrangements of investment properties, as described in note 2d)ii).

IV. Attractions, food, beverage and other hospitality

Revenues from programming and parking, ticket sales, food and beverage sales, event and concessions sales, hospitality revenues, sports facilities, retail store sales and other revenues are recognized at point of sale or when services are provided, as appropriate.

V. Donations and sponsorships

The corporation, through its subsidiaries, has signed agreements with a number of sponsors that provide cash, products, advertising and other services in exchange for various benefits, including exclusive marketing rights and visibility. Donations and sponsorships are recognized in the period to which they relate in interest and other revenues in the Consolidated Statement of Comprehensive Income. Non-monetary transactions are recorded at fair value.

Donations and sponsorships restricted by the donor or sponsor for specific uses are initially recorded under deferred revenues and recognized as revenue when the conditions have been met.

E) PRE-ACQUISITION COSTS

Costs incurred on properties that the corporation has no title to or early use agreement for are expensed to the Consolidated Statement of Comprehensive Income as incurred.

F) PROPERTIES

I. Property, Plant and Equipment

Property, plant and equipment ("PPE") includes properties held for use in the supply of goods and services or administrative purposes. All PPE is stated at historical cost less depreciation and any impairment. Historical cost includes expenditures that are directly attributable to the acquisition of the items.

The corporation has lease obligations for various equipment and office space. The leases vary in length and range for periods of 1 year, up to 10 years. The lease contracts contain a wide range of different terms and conditions. Leases are recognized as a right-of-use asset and corresponding liability at the date of which the leased asset is available for use by the corporation. Each lease payment is allocated between the liability and finance cost. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be determined, or the corporation's incremental borrowing rate. The right-of-use assets are measured at cost, consisting of the amount of the initial measurement of the lease liability, plus any lease payments made to the lessor at or before the commencement date less any lease incentives received, the initial estimate of restoration costs and any initial direct costs incurred by the lessee.

Borrowing costs incurred for the purpose of acquiring, constructing or producing a qualifying PPE are capitalized. A qualifying PPE is an asset that necessarily takes a substantial period of time to get ready for its intended use. Borrowing costs are capitalized while acquisition, construction or production is actively underway. The amount of borrowing costs capitalized during the period was immaterial.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the corporation and the cost of the item can be measured reliably. The carrying amount of those parts that are replaced is derecognized. All other repairs and maintenance are charged to the Consolidated Statement of Comprehensive Income during the financial period in which they are incurred.

Depreciation, based on a component approach, is calculated using the straight-line method to allocate the cost over the assets' estimated useful lives, or lesser of the useful life of the asset and the term of the lease as follows:

ASSETS	TERM
Buildings	
Bridges, quays and building fixtures	5 to 25 years
Foundations and structural components	34 to 55 years
Equipment	
Systems and fixtures	3 to 25 years
Exhibits	4 years
Vehicles	5 years
Land improvements	
Park fixtures	4 to 10 years
Roadways and driveways	25 years
Park structural components	49 to 75 years
Tenant Improvements	lesser of the useful life of the asset and the term of lease
Right-of-use	lesser of the useful life of the asset and the term of lease

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, on an annual basis.

The corporation holds some buildings for dual purposes, where a portion is leased to tenants and the remainder is used by the corporation for administrative purposes. When a significant portion is owner-occupied, the corporation classifies the property as PPE.

II. Investment Properties

Investment properties are properties held by the corporation for the purpose of obtaining rental income or capital appreciation, or both, but not for the ordinary course of business. Investment properties also include properties that are being constructed or developed for future use as investment properties.

The corporation applies the cost model in which investment properties are valued under the same basis as property, plant and equipment (note 2f)i), except where the asset meets the criteria to be classified as held for sale; then the asset is measured in accordance with IFRS 5 *Non-current assets*

held for sale and discontinued operations.

Depreciation, based on a component approach, is calculated using the straight-line method to allocate the cost over the assets' estimated useful lives, or lesser of the useful life of the asset and the term of the lease as follows:

ASSETS	TERM
Buildings	
Building fixtures	5 to 25 years
Foundations and structural components	34 to 55 years
Land improvements and other development costs	
Roadways and driveways	25 years
Structural components	49 to 75 years
Equipment	
Systems and fixtures	3 to 25 years
Tenant Improvements	lesser of the useful life of the asset and the term of lease

Other development costs include direct expenditures on investment properties. These could include amounts paid to contractors for construction, borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property taxes, construction overheads and other related costs.

From commencement of commercial development until the date of completion, the corporation capitalizes direct development costs, realty taxes and borrowing costs that are directly attributable to the project. Also, initial direct leasing costs incurred by the corporation in negotiating and arranging tenant leases are added to the carrying amount of investment property. In management's view, completion occurs upon completion of construction and receipt of all necessary occupancy and other material permits. Depreciation commences upon completion of commercial development.

III. Inventories

Property acquired or being constructed for sale in the ordinary course of business, rather than held for rental or capital appreciation, is held as inventory and is measured at the lower of cost and net realizable value. Costs are allocated to the saleable acreage of each project or subdivision in proportion to the anticipated revenue or current average cost per acre. Inventories are written down to their net realizable value ("NRV") whenever events or changes in circumstances indicate that their carrying value exceeds their NRV. Write-downs are recognized in the Consolidated Statement of Comprehensive Income. NRV is based on projections of future cash flows, which take into account the specific development plans for each project and management's best estimate of the most probable set of economic conditions anticipated to prevail in the market.

The corporation capitalizes all direct expenditures incurred in connection with the acquisition, development and construction of inventory. These include: freehold and leasehold rights for land, amounts paid to contractors for construction, borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, property taxes, construction overheads and other related costs. Selling costs such as commissions and marketing programs are expensed when incurred.

The development period commences when expenditures are being incurred and activities necessary to prepare the asset for its intended use are in progress. Capitalization ceases when the asset is ready for its intended use. During the development phase, any rental revenues and associated expenses related to the project are recognized in the Consolidated Statement of Comprehensive Income (note 2d)iii) during the period. Costs incurred on properties that the corporation has no title to or an early use agreement for are expensed to the Consolidated Statement of Comprehensive Income.

The corporation classifies its properties as properties under development, properties held for sale or properties held for future development. Properties undergoing active development are classified as "properties under development", whereas properties that have been serviced and are ready for sale, or that the corporation intends to sell in their current state without any further significant costs to be

incurred, are classified as “properties held for sale”. Properties classified as “properties held for future development” are properties that active development is yet to commence on. Costs incurred on properties classified as “properties held for future development” and “properties held for sale” are expensed to the Consolidated Statement of Comprehensive Income as incurred.

Inventories, regardless of the properties' classification, are considered current when they are expected to be sold in the next twelve months and realized as real estate development costs. Inventories that are not expected to be sold in the next twelve months are categorized as non-current. Non-property (i.e. operating) inventories are entirely held by the CN Tower and OPMC, and are included in trade receivables and other in the Consolidated Statement of Financial Position.

G) INTEREST IN JOINT ARRANGEMENTS

Investments in joint arrangements are classified as either joint operations or joint ventures, depending on the contractual rights and obligations of each investor. A joint operation is a joint arrangement whereby the parties that have joint control have rights to the assets and obligations for the liabilities relating to the arrangement, whereas a joint venture is a joint arrangement whereby the parties that have joint control only have rights to the net assets of the arrangement. When making this assessment, the corporation considers the structure of the arrangement, the legal form of any separate vehicles, the contractual terms of the arrangement and other facts and circumstances. The corporation evaluates its involvement in each of its joint arrangements individually to determine whether each should be accounted for using joint operation accounting or the equity method, depending on whether the investment is defined as a joint operation or a joint venture (see note 22).

H) IMPAIRMENT OF FINANCIAL AND NON-FINANCIAL ASSETS

I. Impairment of financial assets

The corporation applies an appropriate impairment model approach for financial assets depending on the category of financial assets or liabilities. The three impairment models applicable under IFRS 9 *Financial Instrument* (“IFRS 9”) include the general approach, the simplified approach and the credit adjusted approach. The corporation uses the simplified approach, which recognizes expected credit losses (“ECLs”) based on the lifetime ECLs for trade receivables and the general approach for other financial assets. The results of the general approach ECL model are used to reduce the carrying amount of the financial asset through an allowance account, and the changes in the measurement of the allowance account are recognized in the Consolidated Statement of Comprehensive Income. If a significant increase in credit risk occurs, IFRS 9 would require the estimate of default to be considered over the entire remaining life of the asset under the general approach ECL model. In circumstances when an entity acquires a financial asset that is credit impaired at the date of initial recognition, IFRS 9 requires the credit adjusted approach be applied. The credit adjusted approach results in expected credit losses calculated considering an estimate of default over the life of the asset.

II. Impairment of non-financial assets

The corporation assesses, at each reporting date, whether there is an indication that a non-financial asset may be impaired. If any indication exists, the corporation estimates the asset's recoverable amount (note 2f). An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. When it is not possible to estimate the recoverable amount of an individual asset the corporation estimates the recoverable amount of the cash-generating unit to which the asset belongs. When the carrying amount of an asset (or cash-generating unit) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For non-financial assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the corporation estimates the recoverable amount of the asset (or cash-generating unit). A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Impairment, pre-acquisition costs and write-offs line item of the Consolidated

Statement of Comprehensive Income.

I) CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash and short-term, highly liquid investments, such as money market funds and term deposits, with original maturities at the date of purchase of three months or less, and deposit certificates which are redeemable at any time and mature less than 12 months from the transaction date.

J) INCOME TAXES

Income tax comprises current and deferred tax. Income tax is recognized in the Consolidated Statement of Comprehensive Income except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted at the Consolidated Statement of Financial Position dates, and any adjustment to tax payable in respect of previous years.

Deferred tax is reported using the balance sheet liability method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax reported is based on the expected manner of realization or settlement of the carrying amounts of the assets and liabilities, using tax rates enacted or substantively enacted at the Consolidated Statement of Financial Position dates. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

K) FINANCIAL INSTRUMENTS

The following summarizes the corporation's measurement of financial assets and liabilities:

	MEASUREMENT
Financial Assets	
Trade receivables and other	Amortized cost
Long-term receivables	Amortized cost
Cash and cash equivalents	Amortized cost
Financial Liabilities	
Credit facilities	Amortized cost
Notes payable	Amortized cost
Trade and other payables	Amortized cost

I. Financial assets

Financial assets are classified, at initial recognition, as financial assets at fair value through profit and loss ("FVTPL"), fair value through other comprehensive income ("FVOCI"), or amortized cost. The classification depends on the corporation's business model for managing the financial assets and the contractual terms of the cash flows.

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in interest and other income using the effective interest rate ("EIR") method. Any gain or loss arising on derecognition is recognized directly in the Consolidated Statement of Comprehensive Income. Impairment losses are presented as separate line item in the Consolidated Statement of Comprehensive Income.

II. Financial liabilities

Financial liabilities are measured at amortized cost or at fair value through profit or loss, as appropriate.

The financial liabilities measured at amortized cost are initially measured at fair value and after initial recognition, are subsequently measured at amortized cost using the EIR method.

L) PROVISIONS

A provision is a liability of uncertain timing or amount. Provisions are recognized when the corporation has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. If the effect of the time value of money is material, the provisions are measured at the present value. The provisions are determined by discounting the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognized in financing cost.

Decommissioning costs

A provision for decommissioning obligations in respect of buildings and land containing hazardous materials is recognized when the environment is disturbed; it is more likely than not that the corporation will be required to settle the obligation; an obligation is owed to another party; and a reasonable estimate of the future costs and discount rates can be

made. These obligations are recognized in the period they are incurred at the present value of the best estimate of the expenditures required to settle the present obligation, discounted at a risk-free interest rate. Subsequently, at each reporting date, the obligation is adjusted through an unwinding of discount expense, and any changes in the estimated amounts required to settle the obligation and significant changes in the discount rate, inflation and risks. The associated costs are capitalized as part of the carrying value of the related assets.

The corporation assesses all of its activities and all of its sites and facilities involving risks to determine potential environmental risks. Sites and facilities considered to represent an environmental risk are examined in detail and corrective measures have been or will be taken, as necessary, to eliminate or mitigate these risks. The ongoing risk management process currently in place enables the corporation to examine its activities and property under normal operating conditions and to follow up on accidents that occur. Properties that may be contaminated, or any activities or property that may cause contamination, are taken charge of immediately as soon as contamination is noted, under an action plan developed to assess the nature and extent of the repercussions as well as the applicable requirements.

Payment in lieu of taxes and legal claims

A provision for payment in lieu of taxes ("PILT") and legal claims is recognized when management believes there is a present obligation as a result of a past event; it is more likely than not that the corporation will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

M) CRITICAL JUDGMENTS IN APPLYING ACCOUNTING POLICIES

In the process of applying the corporation's accounting policies, management has made the following critical judgments which have the most significant effect on the amounts recognized in the consolidated financial statements:

I. Inventories

The corporation's policies related to property inventories are described in note 2f)iii). In applying these policies, the corporation makes judgments with respect to the classification of certain inventory properties.

II. Investment properties

The corporation's accounting policies are described in note 2f)ii). In applying these policies, judgment is made for investment properties under development in determining when the property has reached

completion.

III. Leases

The corporation's policy on revenue recognition is stated in note 2d)ii). With regards to this policy, the corporation must consider whether a tenant improvement provided in connection with a lease enhances the value of the leased property in order to determine whether such amounts are treated as additions to investment property. Tenant improvements provided in connection with a lease are recognized as an asset and expensed on a straight-line basis over the term of the lease.

The corporation also makes judgments in determining whether certain leases, especially long-term leases in which the tenant occupies all or a major part of the property, are operating or finance leases.

IV. Provisions

The corporation's policies related to provisions are described in note 2l). In applying these policies, the corporation makes judgments with respect to the best estimates of probability, timing and measurement of expected value of its outcome.

V. Income taxes

The corporation is subject to income taxes in numerous Canadian jurisdictions and significant judgment is required in determining the provision for income taxes. The corporation recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the corporation's income tax expense and current and deferred income tax assets and liabilities in the period in which such determinations are made. See note 18 for additional information.

The corporation makes significant judgments on the recoverability of deferred tax assets based on expectations of future profitability and tax planning strategies. Changes in the expectations or the inability to implement the tax planning strategies could result in derecognition of the deferred tax assets in future periods.

VI. Control over structured entities

The corporation's policy for consolidation is described in note 2c).

The corporation assessed whether or not it controlled the DPF based on whether the corporation has the practical ability to direct the relevant activities of the DPF. In making its judgment, the corporation considered the strict limitations imposed on the DPF's Board by the DPF by-laws over the relevant activities. After assessment, the corporation concluded that, although it does not have direct control over the relevant activities of the DPF, it does have de facto control over those relevant activities as a result of the strict limitations imposed, and therefore the corporation does have control over DPF.

The corporation assessed whether or not it controlled the MSCF based on whether the corporation has the practical ability to direct the relevant activities of the MSCF. In making its judgment, the corporation considered the composition of the MSCF Trustees and the power held by the primary directors of the MSCF Trustees over the MSCF's relevant activities. After assessment, the corporation concluded that, based on the power held by the primary directors, who are officers or directors of CLCL, over the relevant activities of the MSCF, the corporation does have control over the MSCF.

VII. Joint arrangements

The corporation's policy for joint arrangements is described in note 2g). In applying this policy, the corporation makes judgments with respect to whether it has joint control and whether the arrangements are joint operations or joint ventures. In making its judgments, the corporation considered the legal structure and whether or not joint control for decisions over relevant activities existed based on the contractual arrangements. Specifically for the Jericho, West Vancouver, Fairmont and LeBreton joint arrangements, the corporation considered that its third-party partners are only required to fund the projects' operations and note repayments from cash flows from the projects, and therefore any cash shortfalls are funded by the corporation. After assessment, the corporation has determined that joint control exists, as all decisions over relevant activities require the unanimous consent of both parties, and that all of its joint arrangements are joint operations, as they were not structured through a separate vehicle.

N) SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. The corporation includes in its liabilities future servicing costs to complete a project based on management's best estimates. Actual results could differ significantly from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. The estimates and assumptions that are critical to the determination of the amounts reported in the consolidated financial statements relate to the following:

I. Inventories and real estate development costs

In determining estimates of net realizable values for its properties, the corporation relies on assumptions regarding applicable industry performance and prospects, as well as general business and economic conditions that prevail and are expected to prevail. Assumptions underlying asset valuations are limited by the availability of reliable comparable data and the uncertainty of predictions concerning future events. Due to the assumptions made in arriving at estimates of net realizable value, such estimates, by nature, are subjective and do not necessarily result in a precise determination of asset value.

In arriving at such estimates of net realizable value of the properties, management is required to make assumptions and estimates as to future costs which could be incurred in order to comply with statutory and other requirements. Also, estimates of future development costs are used to allocate current development costs across project phases. Such estimates are, however, subject to change based on agreements with regulatory authorities, changes in laws and regulations, the ultimate use of the property, and as new information becomes available.

The corporation produces a yearly corporate plan that includes a proforma analysis of the projects, including expected revenues and projected costs. This analysis is used to determine the cost of sales recorded and net realizable value. This proforma analysis is reviewed periodically, and when events or circumstances change, and is updated to reflect current information.

II. Measurement of Fair Values

Where the fair values of financial assets, investment properties and financial liabilities as disclosed in the notes to the consolidated financial statements cannot be derived from active markets, they are determined using valuation techniques including discounted cash flow models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value. The corporation's assessments of fair values of investment properties are regularly reviewed by management with the use of independent property appraisals and internal management information.

The fair values of all financial instruments and investment properties must be classified in fair value hierarchy levels, which are as follows:

Level 1 (L1) – Financial instruments are considered Level 1 when valuation can be based on quoted prices in active markets for identical assets or liabilities.

Level 2 (L2) – Financial instruments are considered Level 2 when valued using quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or models using inputs that are observable.

Level 3 (L3) – Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques, and at least one significant model assumption or input is unobservable.

The critical estimates and assumptions underlying the valuation of financial assets, investment properties and financial liabilities are set out in notes 5 and 22.

III. Significant Components and Useful Lives

The useful lives and residual values of the corporation's assets are determined by management at the

time the asset is acquired and reviewed annually for appropriateness. The lives are based on historical experience with similar assets, as well as anticipation of future events. Management also makes judgments in determining significant components. A component or part of an item of property, plant and equipment or an investment property is considered significant if its allocated cost is material in relation to the total cost of the item. Also, in determining the parts of an item, the corporation identifies parts that have varying useful lives or consumption patterns.

IV. Interest Rate on Notes Payable to the Government

Notes payable are issued in consideration of the acquisition of real estate properties and are due to the Government. These notes are repayable on the earlier of their due dates or the dates on which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the note state when the issuer can demand payment and payment is not dependent on property cash flows. For those notes that do not state when the issuer can demand payment, the repayment schedule is based on estimated time period and cash flows of the property. The notes are non-interest bearing. The non-interest bearing notes are discounted using an imputed fixed interest rate. The imputed interest is accrued and capitalized to properties or expensed, as appropriate.

V. Impairments and write-downs

Management reviews assets annually, as part of the corporate planning process, and when events or circumstances change.

For inventories, a write-down is recorded when the net realizable value of anticipated net sales revenue is less than the sum of the book value of the property and its anticipated costs to complete. The net realizable value is based on projections of future cash flows, which take into account the specific development plans for each project and management's best estimate of the most probable set of economic conditions anticipated to prevail in the market.

For other assets, such as investment properties and property, plant and equipment, impairment estimates are made based on an analysis of cash-generating units, as described in note 2f), and are recorded if the recoverable amount of the property is less than the book value. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs of disposal and its value in use. The corporation estimates the fair value less costs of disposal using the best information available to estimate the amount it could obtain from disposing of the assets in an arm's-length transaction, less the estimated cost of disposal. The corporation estimates value in use by discounting estimated future cash flows to their present value using a pre-tax rate that reflects current market assessments of the time value of money and the specific risks of the asset. Determination of the present value cash flows requires significant estimates, such as future cash flows and the discount rate applied.

VI. Income taxes

The corporation relies on estimates and assumptions when determining the amount of current and deferred tax, and takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due.

The corporation makes judgments to evaluate whether it can recover deferred tax assets based on its assessment of estimates of future probability and tax legal amalgamation of its subsidiaries. The corporation's current corporate plan and future profit forecast are expected to generate sufficient taxable income to recover the deferred tax assets. Historically, the corporation has been profitable and consistently met its corporate plan profit objectives.

3. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

I. Revenue from contracts with customers

The corporation has applied IFRS 15 *Revenue from Contracts with Customers* ("IFRS 15"), effective April 1, 2018. This standard supersedes IAS 18 *Revenue*, IAS 11 *Construction Contracts*, and a number of revenue related interpretations. IFRS 15 provides a comprehensive five-step revenue recognition model for all contracts with customers. IFRS 15 requires management to exercise significant judgment and make estimates that affect revenue recognition. The corporation has adopted the new standard using the modified retrospective method. There was no impact on transition to this new standard. See Note 2d) for the

corporation's revenue recognition policy.

II. Financial instruments

The corporation has applied IFRS 9 *Financial Instruments*, effective April 1, 2018. This standard replaces IAS 39 *Financial Instruments: Recognition and Measurement*, and supersedes all previous versions of the standard. The standard introduces a new model for the classification and measurement of financial assets and liabilities, a single expected credit loss model for the measurement of the impairment of financial assets and a new model for hedge accounting that is aligned with a corporation's risk management activities. Due to the nature of the corporation's financial instruments, there was no impact on transition to this new standard. See Note 2h) and Note 2k) for the corporation's accounting policies for financial instruments.

III. Leases

The corporation has early adopted IFRS 16 *Leases* ("IFRS 16"), effective April 1, 2018. This standard supersedes IAS 17 *Leases*, IFRIC 4 *Determining Whether an Arrangement Contains a Lease*, SIC-15 *Operating Lease-Incentives*, and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. IFRS 16 sets out principles for the recognition, measurement, presentation and disclosure of leases. The standard provides a single lease accounting model requiring recognition of assets for all leases except in specific circumstances. The standard has minimal changes in respect of lessor accounting. The corporation has applied the simplified approach on transition and accordingly has not restated comparative information. The cumulative effect of applying the standard was not material, and accordingly no adjustment was necessary to opening retained earnings. The new standard has resulted in the corporation recording its operating leases in the Consolidated Statement of Financial Position as right-of-use-assets within property, plant and equipment and lease liabilities. See Note 2f) for the corporation's accounting policy for property, plant and equipment.

4. PROPERTY, PLANT AND EQUIPMENT

The corporation's property, plant and equipment consist mainly of the CN Tower, Downsview Park, the Plaza Garage, the John Street Parkette, the MSC, OPMC quays, bridges, office building and land, vehicles, exhibitions, and computers and office equipment.

The corporation has \$16.3 million (March 31, 2018 - \$21.2 million) of fully depreciated property, plant and equipment still in use.

The gross carrying amount of property, plant and equipment assets at December 31, 2018 includes \$2.3 million (March 31, 2018 - \$12.6 million) of property, plant and equipment under construction.

Cost or deemed cost

Balance, December 31, 2018	\$ -	\$ 58,870	\$ 24,414	\$ 4,248	\$ 171	\$ 408	\$ 90	\$ 88,201

Carrying amounts

At March 31, 2018	\$ 28,030	\$ 82,497	\$ 8,341	\$ 16,995	\$ -	\$ -	\$ -	\$ 135,863
At December 31, 2018	\$ 28,030	\$ 81,302	\$ 8,808	\$ 17,257	\$ 1,918	\$ 3,530	\$ 137	\$ 140,982

The corporation assessed the carrying value of its property, plant and equipment at December 31, 2018 to determine whether an impairment loss or a reversal should be recorded.

During the period ended December 31, 2018 OPMC recognized an impairment loss of \$0.2 million (March 31, 2018 - \$6.1 million). The impairment is assessed at the cash-generated unit ("CGU") level and the impairment loss is calculated as the amount equal to the excess of the carrying amount over the recoverable amount.

OPMC CGU, where the impairment is being recognized, is considered by management to be all of OPMC assets, except for the Allan building, as the cash flows of OPMC assets or groups of assets are dependent on OPMC assets and other groups of assets and cannot be individually identified. OPMC CGU includes public spaces, various piers, parking facilities and the Montreal Science Centre. The Allen building has been excluded from OPMC CGU as its cash flows are independent of OPMC assets.

The recoverable amount of OPMC CGU is considered to be nominal. The fair value hierarchy level is considered a level 3. The corporation has used the discounted cash flows from OPMC CGU to determine that the fair value is nominal. Consistent with other science centres in Canada and other large public spaces, the annual operating cash flows from OPMC CGU assets are negative and are forecasted to be negative for the foreseeable future. In addition, capital investment, which further negatively impacts the cash flows, is

required to support the operations and maintain the existing OPMC assets.

The key management assumption in the determination of the fair value is that the foreseeable projected cash flows from OPMC CGU will continue to be nominal. That assumption is supported by prior year actual results and management's current financial projects for OPMC CGU into the future. These projected net cash flow assumptions are based on the current OPMC CGU asset uses which management does not expect to change in the foreseeable future.

5. INVESTMENT PROPERTIES

The corporation's investment properties consist primarily of the land at the Rogers Centre and the CN Tower Base, and rental properties at PDP.

Included within the Consolidated Statement of Comprehensive Income are the following:

	For three months ended December 31		For nine months ended December 31	
	2018	2017	2018	2017
Rental income	\$ 3,169	\$ 2,641	\$ 8,196	\$ 7,708
Direct operating expenses from investment property that generated rental income during the period	2,328	2,150	5,868	6,066

Cost or deemed cost

	Land	Building	Tenant Improvements	Land Improvements and Other Development Costs	Equipment	Total
Balance, March 31, 2017	\$ 5,413	\$ 15,733	\$ 7,071	\$ 13,140	\$ 3,041	\$ 44,398
Additions	-	31	834	546	-	1,411
Disposals	-	-	(2)	-	-	(2)
Balance, March 31, 2018	\$ 5,413	\$ 15,764	\$ 7,903	\$ 13,686	\$ 3,041	\$ 45,807
Additions	-	236	40	-	357	633
Balance, December 31, 2018	\$ 5,413	\$ 16,000	\$ 7,943	\$ 13,686	\$ 3,398	\$ 46,440

Depreciation and Impairment

	Land	Building	Tenant Improvements	Land Improvements and Other Development Costs	Equipment	Total
Balance, March 31, 2017	\$ -	\$ 5,706	\$ 3,596	\$ 2,605	\$ 2,069	\$ 13,976
Depreciation	-	1,006	477	437	180	2,100
Disposals	-	-	(2)	-	-	(2)
Balance, March 31, 2018	\$ -	\$ 6,712	\$ 4,071	\$ 3,042	\$ 2,249	\$ 16,074
Depreciation	-	738	350	331	151	1,570
Balance, December 31, 2018	\$ -	\$ 7,450	\$ 4,421	\$ 3,373	\$ 2,400	\$ 17,644

Carrying amounts

At March 31, 2018	\$ 5,413	\$ 9,052	\$ 3,832	\$ 10,644	\$ 792	\$ 29,733
At December 31, 2018	\$ 5,413	\$ 8,550	\$ 3,522	\$ 10,313	\$ 998	\$ 28,796

During the period, there were no reversals of previously recognized impairment loss for investment properties (March 31, 2018 – \$nil).

The fair values of investment properties are classified in fair value hierarchy levels (see note 2n)ii) as follows:

Investment properties	Carrying Amount	Fair Value		
		Level 1	Level 2	Level 3
December 31, 2018	\$ 28,796	\$ -	\$ -	\$ 121,400
March 31, 2018	\$ 29,733	\$ -	\$ -	\$ 121,400

The fair value of the investment properties was estimated using a combination of internal valuation techniques and external consultants at March 31, 2018. All material investment properties have been valued by independent valuers. The external consultants are accredited independent valuers with a recognized and relevant professional qualification and with recent experience in the location and category of the investment property being valued. On a quarterly basis, management reviews the assumptions to update the estimated fair value of the investment properties.

In determining fair value, the income and direct comparison approaches were used. The income approach capitalizes net annual revenues or discounts forecasted net revenues to their present value after considering future rental income streams and anticipated operating costs, as well as appropriate capitalization and discount rates. The direct comparison approach references market evidence derived from transactions involving similar properties.

Investment properties valued using the income approach are considered Level 3 given the significance of the unobservable inputs.

The key inputs in the valuation of investment properties using the income approach are:

- Capitalization rate, which is based on the market conditions where the property is located;
- Net operating income, which is normalized and assumes rental income and rental costs using current market conditions;
- Discount rate, reflecting the current market assessment of the uncertainty in the amount and timing of cash flows; and
- Discounted cash flows, which consider the location, type and quality of the property and the current market conditions for similar properties.

The direct comparison approach uses observable inputs, and investment properties valued using this approach are considered Level 2, unless there are significant unobservable inputs, in which case they are considered Level 3.

6. INVENTORIES

The corporation carries its inventories at the lower of cost and net realizable value, and they are classified as follows:

	December 31, 2018	March 31, 2018
Property held for future development	\$ 128,279	\$ 163,738
Property under development	252,149	223,976
Properties held for sale	22,151	5,493
Total Property Inventories	\$ 402,579	\$ 393,207
Current	\$ 63,694	\$ 53,831
Non-current	338,885	339,376
Total Property Inventories	\$ 402,579	\$ 393,207

There were no write-downs recorded against inventories during the period ended December 31, 2018 (March 31, 2018 - \$nil). There were no reversals of write-downs during the period ended December 31, 2018 (March 31, 2018 - \$nil).

7. LONG-TERM RECEIVABLES

Long-term receivables consist of the following:

	December 31, 2018	March 31, 2018
Receivables from partners (a)	\$ 56,977	\$ 57,401
Other long term receivables (b)	821	792
	\$ 57,798	\$ 58,193

(a) The long-term receivables from partners represent the partner's proportionate share of the notes payable which is payable to the corporation. The corporation is obligated for the full amounts of the notes payable for the West Vancouver, Jericho, Fairmont properties (collectively, the Vancouver lands) and the LeBreton property in Ottawa, of which a portion is receivable from its partners. The long-term receivables, similar to the notes payable they are related to, are non-interest bearing and have total principal amounts of \$65.3 million (March 31, 2018 - \$67.0 million), which have been discounted using a weighted average market interest rate of 2.85% (March 31, 2018 - 2.85%). The long-term receivables do not have specific dates of repayment, but are based on the cash flows of the projects (see note 22).

(b) Other long-term receivable represents a non-interest bearing promissory note receivable for the remaining balance from a sale of a real estate property in a prior year.

	December 31, 2018	March 31, 2018
Current	\$ -	\$ 1,656
Non-current	57,798	56,537
	\$ 57,798	\$ 58,193

Years ending March 31 (remainder of year)	2019	2020	2021	2022	2023
	\$ -	-	3,158	11,496	-
Subsequent years			51,685		
Subtotal			66,339		
Less: amounts representing imputed interest			8,541		
			57,798		

8. CASH AND CASH EQUIVALENTS

	December 31, 2018	March 31, 2018
Cash	\$ 52,939	\$ 53,472
Cash equivalents (a)	390,000	400,000
	\$ 442,939	\$ 453,472

(a) Cash equivalents include term deposits as follows:

	December 31, 2018
1.93% maturing date January 09, 2019	\$ 90,000
1.99% maturing date January 21, 2019	300,000
	390,000

The corporation has \$4.5 million (March 31, 2018 - \$4.2 million) of cash and cash equivalents that are restricted for the use of the MSC.

9. TRADE RECEIVABLES AND OTHER

Trade receivables and other are comprised of the following:

	December 31, 2018	March 31, 2018
Prepays and others	\$ 3,560	\$ 4,759
Rents and other receivables	39,326	36,326
Total	\$ 42,886	\$ 41,085
Current	\$ 28,368	\$ 28,424
Non-current	14,518	12,661
	\$ 42,886	\$ 41,085

10. CREDIT FACILITIES

	December 31, 2018	March 31, 2018
\$100 million, unsecured, demand revolving credit facility, bearing interest at rates between 50 basis points and variable banker's acceptance rates plus 45 basis points, maturing at March 31, 2024 (a)	\$ 14,500	\$ 41,500
\$100 million, senior, unsecured revolving credit facility, bearing interest at 40 basis points, maturing at March 31, 2021 (b)	-	-
Total	\$ 14,500	\$ 41,500
Current	\$ 14,500	\$ 41,500
Non-current	-	-
	\$ 14,500	\$ 41,500

(a) The credit facility is available to finance the construction and development and secure letters of credit at PDP.

The borrowings are primarily used to finance the purchase of a portion of the Downsview Lands from the Government and subsequent construction and development. In addition to the borrowings, the corporation has used credit facilities to secure outstanding letters of credit of \$13.4 million (March 31, 2018 - \$10.7 million). The remaining unused credit facility is \$72.1 million at December 31, 2018 (March 31, 2018 - \$47.8 million).

(b) The credit facility is available to secure letters of credit at CLC.

The corporation has used this credit facility to secure outstanding letters of credit of \$25.4 million (March 31, 2018 - \$33.1 million). The remaining unused credit facility is \$74.6 million (March 31, 2018 - \$66.9 million).

The borrowing authority is reviewed in conjunction with the corporate planning process and requires annual approval by the Minister of Finance (note 23 (a)).

11. NOTES PAYABLE

The notes payable were issued in consideration of the acquisition of real estate properties and are due to the government. These notes are repayable on the earlier of their due dates (2018 to 2050) or six months after the fiscal year end of the corporation in which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued. In a limited number of instances the terms of the note state when the issuer can demand payment and payment is not dependent on property cash flows. For all notes, the government may elect to defer repayment. The notes are non-interest bearing. For accounting purposes, the face values of the notes payable are discounted and recorded at their fair value

considering the estimated timing of note repayments, which are not fixed, as well as an imputed fixed interest rate determined when the notes are issued, with the exception of one note discussed below. The imputed interest is then accrued and capitalized to inventories or expensed as appropriate, on a constant yield basis at a weighted average rate of 1.87% (March 31, 2018 – 1.79%).

During the period, the interest capitalized was \$0.8 million (December 31, 2017 – \$1.2 million) and the interest expensed was \$4.2 million (December 31, 2017 – \$4.0 million). Based on the anticipated timing of the sale of the real estate properties, principal repayments are estimated to be as follows:

Years ending March 31 (remainder of year)	2019	\$	13,500
	2020		170,516
	2021		9,300
	2022		44,874
	2023		5,000
Subsequent years			210,840
Subtotal			454,030
Less: amounts representing imputed interest			34,480
		\$	419,550
Current		\$	184,016
Non-current			235,534
		\$	419,550

Included in the \$419.6 million from the table above is a note payable of \$19.0 million, which has not been discounted, given the corporation applied predecessor accounting values upon obtaining control of PDP in 2012. This note is due to the Government in 2050.

The following table presents the cash flows and non-cash changes for borrowings:

	CASH FLOW	NON-CASH CHANGES	
	Repayment	Additions	Total
Notes payable balance April 1, 2017	\$ -	\$ -	\$ 409,438
Interest capitalized	-	-	1,546
Interest expensed	-	-	5,400
Additions (Note 20)	-	11,623	11,623
Notes payable balance March 31, 2018			\$ 428,007
Interest capitalized	-	-	818
Interest expensed	-	-	4,225
Repayments (Cash flow - financing activities)	(13,500)	-	(13,500)
Notes payable balance December 31, 2018			\$ 419,550

12. TRADE AND OTHER PAYABLES

The components of trade and other payables are as follows:

	December 31, 2018	March 31, 2018
Trade Payables	\$ 19,877	\$ 33,069
Sales proceeds sharing liabilities (a)	78,216	78,216
Leases payable (note 2fi)	3,666	-
Total	\$ 101,759	\$ 111,285
Current	\$ 98,458	\$ 111,285
Non-current	3,301	-
	\$ 101,759	\$ 111,285

(a) These amounts are due to the Government as part of sales proceeds sharing arrangements related to sold real estate properties.

Capital and operating commitments

- I. Commitments related to properties for land servicing requirements and other development costs at December 31, 2018 total \$51.3 million (March 31, 2018 - \$36.0 million).
- II. Capital commitments for property, plant and equipment at December 31, 2018 total \$3.3 million (March 31, 2018 - \$6.7 million).
- III. Operating commitments for maintaining capital assets at December 31, 2018 total \$ 2.8 million (March 31, 2018 - \$3.3 million)

13. PROVISIONS AND CONTINGENT LIABILITIES

	Cost to Complete (a)	PILT (b)	Others	Total
Balance, March 31, 2018	\$ 15,630	\$ 14,003	\$ 164	\$ 29,797
Provisions added during the period	1,727	2,465	-	4,192
Provisions applied during the period	(5,584)	-	-	(5,584)
Provisions reversed during the period	(28)	-	-	(28)
Balance, December 31, 2018	\$ 11,745	\$ 16,468	\$ 164	\$ 28,377
Current			\$	27,055
Non-current				1,322
			\$	28,377

(a) Land servicing costs relating to sold properties in the amount of \$11.7 million (March 31, 2018 - \$15.6 million). The costs are estimated to be spent over five years with the majority to be incurred in the next twelve months. The corporation expects to be reimbursed \$6.7 million (March 31, 2018 - \$6.3 million) from local municipalities and regions. The amounts provided for are based on management's best estimate, taking into consideration the nature of the work to be performed, the time required to complete the work, past experience, and market development and construction risks.

(b) PILT assessments from January 2014 of \$16.5 million (March 31, 2018 - \$14.0 million) that are being contested by the corporation.

Contingencies

As at December 31, 2018, the corporation was involved in claims and proceedings that arise from time to time in the ordinary course of business, including actions with respect to contracts, construction liens, Aboriginal title claims, employment and environmental matters. Based on the information currently available to the corporation, management believes that the resolution of these matters and any liability arising

therefrom will not have a significant adverse effect on these consolidated financial statements. However, these matters are subject to inherent uncertainties and their outcome is difficult to predict; therefore, management's view of these matters may change in the future.

The corporation's activities are governed by many federal, provincial and municipal laws and by-laws to ensure sound environmental practices, in particular for the management of emissions, sewage, hazardous materials, waste and soil contamination. Decisions relating to the ownership of real estate assets and any other activity carried on by the corporation have an inherent risk relating to environmental responsibility.

The corporation assesses all of its activities and all of its sites and facilities involving risks to determine potential environmental risks. For the properties and activities that may be significantly contaminated, the corporation has assessed the likelihood of settlement as remote. The corporation has no guarantee that material liabilities and costs relating to environmental issues will not be incurred in the future or that such liabilities and costs will not have significant negative impacts on the corporation's financial situation.

Decommissioning costs

The corporation operates certain structures under an operating lease. The agreement signed by the parties includes a clause which stipulates that upon expiry of the lease the owner will retake control of these structures without providing any compensation for any additions or modifications made by the corporation to the initial structures, provided that the owner considers them to be in satisfactory condition. According to the corporation, the changes made to the structures since it has had responsibility for management thereof satisfy the lessor's requirements. Accordingly, no liability relating to the retirement of these assets has been recognized in the consolidated financial statements.

14. GAIN ON SALE OF ASSETS

During the quarter, PDP completed a series of transactions ("the transactions") with an adjacent land owner in Toronto. The transactions included the sale of subsurface land and the extinguishment of certain rights and encumbrances held, in exchange for cash consideration of \$33.0 million and five acres of land.

The transactions also included a roadway and infrastructure agreement which provides PDP and the adjacent land owner with certain rights and a framework for cost sharing and allocation on their lands.

The corporation realized a net gain of \$34.8 million before income taxes that is recorded under the revenue section of the Consolidated Statement of Comprehensive Income under the caption "Gain on sale of assets".

15. EXPENSES BY NATURE

The nature of expenses in real estate development costs, attractions, food, beverage and other hospitality expenses, rental operating costs, general and administrative, impairment, pre-acquisition costs and write-offs, and interest and other expenses consisted of the following:

	For three months ended December 31		For nine months ended December 31	
	2018	2017	2018	2017
Cost of Inventory, raw material and consumables used	\$ 10,449	\$ 15,971	\$ 15,775	\$ 37,603
Payroll & Benefits	11,871	11,855	37,801	37,042
Food and Beverage Costs	3,192	3,087	12,500	12,464
Property Taxes including PILT	3,669	4,392	10,968	10,802
Leasing Expenses	3,683	3,409	10,438	10,255
Depreciation and Amortization	3,336	3,740	9,465	11,034
Utilities	1,919	2,447	5,759	6,523
Building cost	2,098	1,652	5,424	4,475
Interest	1,375	1,535	4,495	4,477
Marketing and public relations	1,685	1,507	4,240	4,781
Professional Fees	1,141	3,447	4,222	7,889
Attraction Costs	607	722	4,035	4,098
Office	325	657	1,767	2,074
Other	63	717	2,126	2,477
IT Costs	387	324	1,248	1,035
Impairment	-	5,223	200	10,148
Commission	-	500	-	500
Profit sharing	-	6,125	-	8,125
	\$ 45,800	\$ 67,310	\$ 130,463	\$ 175,802

16. SHAREHOLDER'S EQUITY

(a) Capital Stock

CLCL is authorized to issue three shares, which shall be transferred only to a person approved by the Minister designated as the appropriate Minister for CLCL (Minister). The current Minister is the Minister of Public Services and Procurement Canada. The three authorized shares have been issued and are held in trust for Her Majesty in right of Canada by the Minister. Nominal value has been ascribed to the three issued shares of CLCL.

(b) Contributed Surplus

Contributed surplus is comprised of the net assets of \$249.6 million acquired from the Minister of Transport, plus the net assets of OPMC and PDP acquired on November 29, 2012 of \$36.1 million, less \$104.5 million transferred to capital stock. Subsequently, CLC's capital stock was reduced by this amount through payments to the shareholder in accordance with the Canada Business Corporations Act during the period 1996 to 2000.

17. LEASES

Leases as lessor

The corporation leases out its investment properties, certain inventories and property, plant and equipment under operating leases with initial lease terms between less than 1 year to 25 years. Some leases have renewal options, with one lease having nine 10-year renewal options. The renewal options of these leases have not been included in the table below.

The future minimum lease payments under non-cancellable leases are as follows:

	December 31, 2018		March 31, 2018	
Less than 1 year	\$	18,053	\$	19,608
Between 1 and 5 years		22,321		28,850
More than 5 years		12,263		12,871
Total	\$	52,638	\$	61,329

As part of purchase and sale agreements with a related party, the corporation is required to lease housing units at a discount compared to market rates. The lease units generated \$1.0 million of rental revenue during the period (December 31, 2017 – \$1.0 million). The individual leases are renewed monthly.

18. INCOME TAXES

	For three months ended December 31		For nine months ended December 31	
	2018	2017	2018	2017
Income Tax Expense				
Deferred tax expense (recovery)	\$ (505)	\$ (2,281)	\$ 4,307	\$ (5,300)
Current income tax expense	3,625	6,343	16,440	20,842
Total Tax Expense	3,120	4,062	20,747	15,542
Reconciliation of effective tax rate				
Profit excluding tax	8,301	13,228	76,089	57,778
Domestic tax rate	26.5%	26.5%	26.5%	26.5%
Tax using the domestic tax rate	2,203	3,501	20,194	15,323
Non-deductible expenses	-	20	30	54
Temporary difference	535	190	6,282	(870)
Use of prior year tax losses	-	351	(6,804)	1,035
Other adjustments	382	-	1,045	-
Total Tax Expense	\$ 3,120	\$ 4,062	\$ 20,747	\$ 15,542

Management has recognized deferred tax assets for non-capital losses, tax credits and temporary differences to the extent that it is probable that future increases will be available to use the assets.

19. CONSOLIDATED STATEMENT OF CASH FLOWS – SUPPLEMENTAL INFORMATION

In addition, there were non-cash increases in notes payable (see Note 11) which has been excluded from the financing and investing activities in the Consolidated Statement of Cash Flows.

The components of the changes to non-cash working capital and other under operating activities include:

	For three months ended December 31		For nine months ended December 31	
	2018	2017	2018	2017
Trade receivables and other	\$ 2,229	\$ 7,333	\$ (1,800)	\$ 11,715
Long-term receivables	1,245	(398)	395	(1,224)
Trade and other payables	(12,860)	5,233	(13,326)	(13,201)
Provisions	2,537	2,073	4,165	3,334
Notes payable	344	290	709	848
Dividend payable	10,000	-	-	-
Deferred revenue	265	88	453	332
Prepaid rent, deposits and others	(376)	(2,076)	1,069	119
Total	\$ 3,384	\$ 12,543	\$ (8,335)	\$ 1,923

As part of the transactions identified in Note 14, the corporation received non-cash increase of \$1.8 million

in inventory, which has been excluded from the operating activities in the Consolidated Statement of Cash Flows.

20. RELATED PARTY TRANSACTIONS AND BALANCES

The corporation is wholly owned by the Government and is under common control with other governmental agencies and departments, and Crown corporations. The corporation enters into transactions with these entities in the normal course of business.

During the period, the corporation paid a dividend of \$10.0 million (December 31, 2017 - \$nil) to its shareholder, the Government.

The following disclosures represent the significant transactions with related parties:

I. The corporation enters in agreements of purchase and sale with related parties to acquire real estate properties in exchange for notes payable. During the period, the corporation did not acquire any real estate properties from related parties (December 31, 2017 - \$12.0 million) in exchange for notes payable.

Notes payable to the Government are non-interest bearing (note 11) and are repayable on the earlier of their due dates or six months after the fiscal year end of the corporation in which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the notes state when the issuer can demand payment and payment is not dependent on property cash flows. The corporation made payments of \$13.5 million on its notes payable to related parties in the current period (December 31, 2017 - \$nil).

II. In prior years, the corporation entered into three agreements of purchase and sale with Public Services and Procurement Canada ("PSPC"). Under the terms of these agreements, the corporation would share a portion of the sales proceeds with the related party. The corporation has sales proceeds sharing liabilities of \$78.2 million from sales in prior years.

III. The corporation received various rental and other revenues from federal agencies and departments of \$1.3 million (December 31, 2017 - \$1.6 million), mainly from leases with the Department of National Defence, and PSPC. During the period, the corporation did not make real estate sales to related party (December 31, 2017 - \$8.1 million).

IV. Other than the aforementioned sales proceeds sharing liabilities of \$78.2 million to PSPC, the corporation has no receivable or payable with federal agencies and departments (March 31, 2018 - \$0.1 million).

V. Key management personnel compensation, which includes the corporation's senior management team and the board of directors, are described in the following table:

For the period ended December 31	2018	2017
Short-term benefits (1)	\$ 3,029	\$ 2,448
Post-employment benefits (2)	111	73
	\$ 3,140	\$ 2,521

1) Short-term benefits include salaries, incentive compensation, health benefits, and other benefits for current employees.

2) Post-employment benefits include contributions to pension plans.

21. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of cash and cash equivalents, current trade receivables and other, current trade and other payables, dividends payable, deposits and others approximate their fair value due to the short-term maturities.

The corporation has valued its long-term receivables by discounting the cash flows using the current market

rate of borrowing plus a credit risk factor for its customers and partners, except for the long-term receivable from its third-party partners which, due to the nature of the joint arrangement, has been discounted at current yields on government bonds plus project risk.

The corporation has valued its financial liabilities by discounting the cash flows at current yields on government bonds plus a discount factor for the corporation's credit risk. There has not been any change in valuation technique for financial instruments during the year.

The carrying values and fair values of the corporation's financial instruments are summarized using the fair value hierarchy (note 2) in the following table:

As at December 31, 2018		Level 1	Level 2	Level 3
Classification	Carrying Amount	Fair Value		
Financial Assets				
Long-term receivables	\$ 57,798	\$ -	\$ 59,029	\$ -
Financial Liabilities				
Notes payable	419,550	-	409,402	-
Credit facilities	14,500	-	14,500	-

As at March 31, 2018		Level 1	Level 2	Level 3
Classification	Carrying Amount	Fair Value		
Financial Assets				
Long-term receivables	\$ 58,193	\$ -	\$ 56,986	\$ -
Financial Liabilities				
Notes payable	428,007	-	416,750	-
Credit facilities	41,500	-	41,500	-

22. JOINT ARRANGEMENTS

The corporation has entered into a number of joint arrangements for the land development of properties. The corporation has assessed each joint arrangement individually and concluded that based on the terms and structure of the contractual arrangements, each joint arrangement is a joint operation. The corporation recognizes its proportionate share of the assets, liabilities, revenues and expenses for these properties in the respective lines in the consolidated financial statements.

The following is a list of the corporation's joint arrangements:

JOINT ARRANGEMENT	LOCATION	NATURE OF PROPERTY	OWNERSHIP INTEREST	
			DECEMBER 31, 2018	MARCH 31, 2018
CLC Bosa	Calgary, AB	Land development	50.0%	50.0%
West Vancouver	Vancouver, BC	Land development	-	50.0%
Jericho	Vancouver, BC	Land development	50.0%	50.0%
Fairmont	Vancouver, BC	Land development	50.0%	50.0%
LeBreton	Ottawa, Ontario	Land development	66.7%	66.7%

In May 2013, the corporation entered into a land development agreement for property in Calgary which is jointly controlled. The corporation has determined that the joint arrangement is a joint operation based on the terms and structure of the contractual arrangement, which requires unanimous approval from the corporation and the third-party with regards to relevant activities of the property.

In September 2014, the corporation entered into three separate land development agreements (West Vancouver, Jericho, and Fairmont, respectively) for properties in Vancouver, with the same third-party partners (the Musqueam, Squamish, and Tsleil-Waututh Nations). Each of the three separate land development agreements is jointly controlled by the corporation and the third-party partners. The corporation has determined that each of the joint arrangements is a joint operation based on the terms and structure of the contractual arrangements, which require unanimous approval from the corporation and the third-party partners regarding decisions over all relevant activities of the properties.

The purchase of the Vancouver lands was financed through non-interest bearing promissory notes issued by the corporation. The corporation is responsible for the full repayment of the promissory notes on the earlier of their due dates or six months after the fiscal year end of the corporation when net proceeds become available from the respective property. These promissory notes will be partially funded by the third-party partner's proportionate share of the notes payable, which is reflected as a long-term receivable (see note 7). Under each land development agreement, the third-party partners' portion of the adjusted gross revenues is first applied to their share of the promissory notes.

In February 2017, the corporation entered into a land development agreement for a property in Ottawa, with a third-party partner named the Algonquins of Ontario Opportunities ("AOO"). The land development agreement is jointly controlled by the corporation and the third-party partner. The corporation has determined that the joint arrangement is a joint operation based on the terms and structure of the contractual agreement, which requires unanimous approval from the corporation and the third-party partners regarding decisions overall relevant actions of the property. The purchase of the Ottawa land was financed through a non-interest bearing promissory note issued by the corporation. The corporation is responsible for the full repayment of the promissory note on the earlier of their due dates or six months after the fiscal year-end of the corporation when net proceeds become available from the property. This promissory note will be partially funded by the third-party partner's proportionate share of the notes payable, which is reflected as a long-term receivable (see note 7).

On December 14, 2018, the corporation sold its ownership interest in the West Vancouver lands (the property) to its third-party partners (the partners). As part of the transaction, the corporation received from its partners, the long-term receivable owing on the property.

The following amounts included in these consolidated financial statements represent the corporation's proportionate share of the assets and liabilities of its joint arrangement interests as at December 31, 2018,

and the results of operations and cash flows from April 1, 2018 to December 31, 2018:

	Jericho		Fairmont		Bosa		Other		Total	
	December 31, 2018	March 31, 2018								
Assets	\$ 92,679	\$ 92,442	\$ 23,084	\$ 23,058	\$ 16,638	\$ 16,226	\$ 6,221	\$ 11,595	\$ 138,622	\$ 143,321
Liabilities*	101,288	98,596	22,921	22,209	-	179	6,179	10,014	130,388	130,998

For three months ended December 31										
	2018	2017	2018	2017	2018	2017	2018	2017	2018	2017
Revenues	157	310	177	345	-	-	71	72	405	727
Expenses	(40)	283	446	394	-	-	(4)	22	402	699
Net income (loss)	197	27	(269)	(49)	-	-	75	50	3	28
Cash flow provided by (used in) operating activities	(6)	(2)	61	135	(2)	(3)	82	55	135	185

For nine months ended December 31										
	2018	2017	2018	2017	2018	2017	2018	2017	2018	2017
Revenues	524	925	549	1,008	-	-	212	213	1,285	2,146
Expenses	789	779	1,426	1,165	-	-	33	61	2,248	2,005
Net income (loss)	(265)	146	(877)	(157)	-	-	179	152	(963)	141
Cash flow provided by (used in) operating activities	(402)	(2)	(713)	(244)	(483)	13	72	133	(1,526)	(100)

* Liabilities include the corporation's obligation for the notes payable to finance the acquisition of inventory, net of the long-term receivable from its partners for their proportionate share of the notes payable funded through future project cash flows (note 7).

The corporation is currently providing funding as the project manager to all joint arrangements. For Jericho, Fairmont and LeBreton, repayment of the partner's share of project costs is from joint arrangement cash flows.

The corporation's proportionate share for commitments related to properties for land servicing requirements and other development costs for the joint arrangements at December 31, 2018 totaled \$2.2 million (March 31, 2018 - \$1.4 million) and are included in the commitments related to properties in note 12 b)i).

23. FINANCIAL RISK MANAGEMENT

a) Liquidity Risk:

Liquidity risk is the risk that the corporation will not be able to meet its financial obligations as they become due. The table below summarizes the maturity profile of the corporation's financial liabilities based on contractual undiscounted payments:

As at December 31, 2018	Carrying amount	Contractual Cash Flows		
		Within next 12 months	Thereafter	Total
Credit facilities (note 10)	\$ 14,500	\$ 14,500	\$ -	\$ 14,500
Notes payable (note 11)	419,550	184,016	270,014	454,030
Trade and other payables (note 12)	101,759	98,458	3,925	102,383
	\$ 535,809	\$ 296,974	\$ 273,939	\$ 570,913

As at March 31, 2018	Carrying	Contractual Cash Flows		
		Due by March 31,	Thereafter	Total
Credit facilities (note 10)	\$ 41,500	\$ 41,500	\$ -	\$ 41,500
Notes payable (note 11)	428,007	169,866	297,664	467,530
Trade and other payables (note 12)	111,285	111,285	127	111,285
	\$ 580,792	\$ 322,651	\$ 297,791	\$ 620,315

The corporation manages its liquidity risk by forecasting and managing cash flows from operations and anticipating capital expenditures and financing activities. The corporation also manages its cash flow by maintaining sufficient cash balances to meet current obligations and investing surplus cash in low-risk bank investments.

The corporation has notes payable which are owed to the shareholder and under the related agreements, the notes are not due until positive cash flows are achieved from the properties by which they are secured, except in a limited number of instances where the terms of the note state when the issuer can demand payment and payment is not dependent on property cash flows (see note 11).

The corporation has borrowing authorities from the Minister of Finance of \$200 million (March 31, 2018 - \$200 million). CLC's borrowing authority of \$100 million expires on March 31, 2021. PDP's borrowing authority of \$100 million expires on March 31, 2019. The corporation's borrowing authorities are reviewed annually as part of the corporate planning process. The corporation has \$200 million of credit facilities available, of which \$146.7 million is unused (March 31, 2018 - \$114.7 million). The credit facilities for CLC and PDP mature on March 31, 2021 and March 31, 2024, respectively.

Accounts payable are primarily due within 90 days. The repayment terms for credit facilities and notes payable are disclosed in notes 10 and 11, respectively.

b) Market Risk

Market risk is the risk that the fair values of financial instruments will fluctuate because of changes in market prices, and includes currency and interest rate risk.

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in foreign currency exchange rates. The corporation has little exposure to currency risk.

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The corporation is exposed to interest rate risk on its credit facilities and cash and cash equivalents, which are based on variable rates of interest. The credit facilities are used to finance the development of lands and guarantee the corporation's letters of credit. A change in interest rates would not have had a significant impact on net earnings or comprehensive income in the current year. Cash and cash equivalents have limited exposure to interest rate risk due to their short-term nature. The impact of a change in interest rate of +/- 0.5% would not be significant to the Consolidated Statement of Comprehensive Income.

Financial assets and financial liabilities that bear interest at fixed rates are subject to fair value interest rate risk. The corporation measures these at amortized cost; therefore, a change in interest rates at the reporting

date would not affect net income with respect to these fixed rate instruments.

c) Credit Risk

The corporation's credit risk arises from the possibility that tenants may experience financial difficulty and be unable to pay the amounts owing under their commitments. For long-term receivables from partners, payments are made from the cash flows of the joint arrangements. The projected cash flows from the joint arrangements to the partners are significantly higher than the amount of the long-term receivables at December 31, 2018 owed to the corporation.

The corporation attempts to reduce the risk of credit loss by limiting its exposure to any one tenant or industry and performing credit assessments in respect of new leases or credit transactions. Also, this risk is further mitigated by signing long-term leases with varying lease expirations and obtaining security deposits from tenants.

The corporation's maximum exposure to credit risk is limited to the carrying value of trade receivables and other, long-term receivables and cash and cash equivalents.

The corporation's receivables of \$39.3 million (March 31, 2018 – \$36.3 million) are comprised primarily of current balances owing. The corporation performs monthly reviews of its receivables and establishes an appropriate provision using the expected credit loss model.

The corporation's long-term receivables of \$57.8 million (March 31, 2018 - \$58.2 million) are comprised of \$57.0 million (March 31, 2018 – \$57.4 million) of receivables from partners and \$0.8 million (March 31, 2018 - \$0.8 million) of long-term receivables from a sale of real estate property in prior years. The corporation reviews the receivables from partners and other long-term receivables on a quarterly basis to determine if provisions are required.

The corporation's cash, including bank deposits and term deposits, of \$442.9 million (March 31, 2018 – \$453.5 million) is held with major financial institutions that are rated AA by a recognized credit agency. The corporation does not expect any related counterparties to fail to meet their obligations.

24. CAPITAL MANAGEMENT

The corporation's objective when managing capital is to maintain adequate levels of funding to support its activities.

	December 31, 2018	March 31, 2018
Shareholder's equity	\$ 638,791	\$ 593,449
Credit facilities	14,500	41,500
Notes payable	419,550	428,007
Cash and cash equivalents	442,939	453,472
Total	\$ 1,515,780	\$ 1,516,428

The corporation has notes payable which are owed to the shareholder and under the related agreements, the notes are not due until positive cash flows are achieved from the properties, except for, i) five promissory notes for which the issuer can demand payments of \$22.0 million within the next 12 months and ii) a \$19.0 million note which is due in 2050.

All short-term and long-term borrowings are approved by the Minister of Finance with respect to the amount, interest rate and term, and are included in the corporation's Corporate Plan which must receive Governor in Council approval.

In order to meet its objective, the corporation invests all capital that is surplus to its immediate operational needs in highly liquid financial instruments with original maturities of up to one year, such as bank deposits, deposit certificates and money market funds. All of these instruments are held with major financial institutions rated AA by a recognized credit agency.

On December 31, 2018, cash and cash equivalents totalled \$442.9 million. The cash equivalents are invested in term deposits with a Canadian chartered bank with maturities up to 21 days.

The corporation's strategy is to satisfy its liquidity needs using cash on hand, cash flows generated from operating activities and cash flows provided by financing activities, as well as proceeds from asset sales.

Rental revenue, recoveries from tenants, lot sales, attractions and hospitality revenue, interest and other income, available cash balances, draws on corporate credit facilities and refinancing of maturing indebtedness are the corporation's principal sources of capital used to pay operating expenses, dividends, fund federal infrastructure projects, debt service and recurring capital and leasing costs in its commercial property, attractions and hospitality, and residential development businesses. The corporation plans to meet its short-term liquidity needs with revenue, along with proceeds from financing activities.

The principal liquidity needs for periods beyond the next twelve months are for scheduled debt maturities, recurring and non-recurring capital expenditures, development costs and potential property acquisitions. The corporation's strategy is to meet these needs with one or more of the following:

- cash flows from operations;
- proceeds from sales of assets;
- credit facilities and refinancing opportunities.

25. PENSION PLANS

The corporation has two defined contribution pension plans covering eligible CLC full-time and certain part-time employees. In accordance with the terms of the plans, employees are eligible to join either at the date of employment or after a year of employment. The amount of the current service cost charged to expense for these plans was \$1.1 million for the period ended December 31, 2018 (December 31, 2017 – \$1.1 million).
